

# Transition Economies

- Countries that have been moving towards a more market-oriented balance in their economic systems.
- Examples of countries that are in transition: Hungary, Poland and Russia

# Postsoviettype Economies In Transition

**Ying-Ying Zheng**

## **Postsoviettype Economies In Transition:**

**Political Economy of Reform and Change (Routledge Revivals)** Jan Winiecki, 2013-04-03 First published in 1997 this collection of articles and essays analyses the political economy of reform and change in Eastern Europe during the years of Gorbachev's perestroika and the years immediately following the fall of the Berlin wall and the collapse of the Soviet Union. Written by Polish economist Jan Winiecki between 1984 and 1996 this work explores the issue of the feasibility of reform and change during the period of decline and collapse of communist economic order and later the emergence of the capitalist economic order in the post communist Eastern Europe. Split into three parts the work considers firstly the failures of Gorbachev's political economy of reform secondly the determining factors in the collapse of the Soviet system and finally the feasibility of the systematic change which began in the wake of its collapse.

**The Private Sector after Communism** Vladimir Banacek, Mihaly Laki, Jan Winiecki, 2004-06-01 The transformation of state owned enterprises into privately owned ones is commonly referred to as privatization. Just as important as this process though sometimes not given the attention it deserves and requires is the establishment and expansion of new private firms. This book analyzes new entrepreneurial firms that emerge and occasionally flourish after a period of state communism has come to an end. The authors rightly focus on the aftermath of the end of communism by looking first at the inevitable output decline followed by an overview of new entrepreneurial firms. Specific East European examples are examined and the lessons which can be learned from these will interest academics and policy makers alike. Committed and knowledgeable authors in this book treat the sometimes emotive issue of transition developing economies maturely and expertly. The result is a volume which will interest scholars with an interest in transition economics and politics as well as those who actively work in transition economies.

**Wirtschaftspolitik der Systemtransformation**, 2013-11-21 Die vorliegende Arbeit beschäftigt sich mit einem der aktuellsten und wichtigsten Themen unserer Zeit. Die Probleme oder gar Krisen der in Ost und Mitteleuropa aber auch in vielen Teilen der Dritten Welt versuchten marktwirtschaftlichen Transformation und die möglichen Wege bzw. Chancen diese Probleme zu bewältigen sind nicht nur für diese Länder von entscheidender Bedeutung sondern auch für die Zukunft der Weltwirtschaft und des Weltfriedens. Der zentrale Inhalt der Systemtransformation liegt darin den allgegenwärtigen Staatseinfluss zurückzuführen und eine funktionierende marktwirtschaftliche Ordnung zu schaffen. Die Reichweite und Aufgabenstellungen der hierfür notwendigen Reformen werden in der vorliegenden Studie vom Verfasser gründlich analysiert. In Kenntnis der möglichen tiefgreifenden Probleme und krisenhaften Entwicklungen die den Transformationsprozess begleiten können beschäftigt sich Bleuel ausführlich mit den Ursachen von Transformationskrisen. Dadurch wird es nicht zuletzt möglich Schlussfolgerungen bezüglich der Möglichkeiten zur Begegnung bzw. Relativierung dieser Probleme abzuleiten. Die Ausgestaltung zentraler Politikbereiche der Systemtransformation wird so einer fundierten Analyse der Wirkungsmechanismen und Schwierigkeiten der verschiedenen Handlungsoptionen unterzogen.
