## **Doordash Review Returns:**

**There Is No Place for Us** Brian Goldstone, 2025-03-25 Through the unforgettable stories of five Atlanta families this landmark work of journalism exposes a new and troubling trend the dramatic rise of the working homeless in cities across America Read this extraordinary book If you're lucky you'll be changed Adrian Nicole LeBlanc author of *Random Family* The working homeless In a country where hard work and determination are supposed to lead to success there is something scandalous about this phrase But skyrocketing rents low wages and a lack of tenant rights have produced a startling phenomenon People with full time jobs cannot keep a roof over their head especially in America's booming cities where rapid growth is leading to catastrophic displacement These families are being forced into homelessness not by a failing economy but a thriving one In this gripping and deeply reported book Brian Goldstone plunges readers into the lives of five Atlanta families struggling to remain housed in a gentrifying increasingly unequal city Maurice and Natalia make a fresh start in the country's Black Mecca after being priced out of DC Kara dreams of starting her own cleaning business while mopping floors at a public hospital Britt scores a coveted housing voucher Michelle is in school to become a social worker Celeste toils at her warehouse job while undergoing treatment for ovarian cancer Each of them aspires to provide a decent life for their children and each of them one by one joins the ranks of the nation's working homeless Through intimate novelistic portraits Goldstone reveals the human cost of this crisis following parents and their kids as they go to sleep in cars or in squalid extended stay hotel rooms and head out to their jobs and schools the next morning These are the nation's hidden homeless omitted from official statistics and proof that overflowing shelters and street encampments are only the most visible manifestation of a far more pervasive problem By turns heartbreaking and urgent *There Is No Place for Us* illuminates the true magnitude causes and consequences of the new American homelessness and shows that it won't be solved until housing is treated as a fundamental human right

**Applications of Mathematics in Science and Technology** Bui Thanh Hung, M. Sekar, Ayhan ESI, R. Senthil Kumar, 2025-04-29 The Conference dealt with one of the most important problems faced in International development in Pure Mathematics and Applied mathematics development in engineering such as Cryptography Cyber Security Network Operations Research Heat Equation and so forth The aim of the conference was to provide a platform for researchers engineers academicians as well as industrial professionals to present their research results and development activities in Pure and Applied Mathematics and its applied technology It provided opportunities for the delegates to exchange new ideas and application experiences to establish business or research relations and to find global partners for future collaboration

**Your Boss Is an Algorithm** Antonio Aloisi, Valerio De Stefano, 2022-07-14 What effect do robots algorithms and online platforms have on the world of work Using case studies and examples from across the EU the UK and the US this book provides a compass to navigate this technological transformation as well as the regulatory options available and proposes a new map for the era of radical digital advancements From platform work to the gig economy and the impact of

artificial intelligence algorithmic management and digital surveillance on workplaces technology has overwhelming consequences for everyone's lives reshaping the labour market and straining social institutions Contrary to preliminary analyses forecasting the threat of human work obsolescence the book demonstrates that digital tools are more likely to replace managerial roles and intensify organisational processes in workplaces rather than opening the way for mass job displacement Can flexibility and protection be reconciled so that legal frameworks uphold innovation How can we address the pervasive power of AI enabled monitoring How likely is it that the gig economy model will emerge as a new organisational paradigm across sectors And what can social partners and political players do to adopt effective regulation Technology is never neutral It can and must be governed to ensure that progress favours the many Digital transformation can be an essential ally from the warehouse to the office but it must be tested in terms of social and political sustainability not only through the lenses of economic convenience Your Boss Is an Algorithm offers a guide to explore these new scenarios their promises and perils
