Moving on Donald Kenrick,1999 *Minority Rights Protection in International Law* Helen O'Nions,2016-04-22 There are approximately ten million Roma in Europe making them the continent s largest non territorial minority Despite this fact the Roma continue to experience routine discrimination and marginalization in European countries As a result they are seldom engaged in national political activism and are frequently at the bottom of the economic and social ladder The severity of exclusion experienced by the Roma in societies which have long paid heed to the notion of individual universal human rights combined with their geographical dispersal and heterogeneous nature makes the study of the Roma highly informative This book examines the theoretical debate concerning the most appropriate way of protecting the fundamental human rights of the Roma which also illuminates ways in which the rights of minority groups can be protected more generally As a result this work will be a valuable resource for social scientists and practitioners in the field of human rights School Provision for Ethnic Minorities Jean-Pierre Liégeois,Centre de recherches tsiganes,1998 This is a new edition of the highly influential Synthesis Report School provision for Gypsy and Traveller children commissioned by the European Commission first published in 1986 which led to the adoption of the Resolution on school provision for Gypsy and Traveller Children by the Council Ministers of Education 22 May 1989
