14-19 Education and Skills Ruth Kelly,Great Britain. Department for Education and Skills,2005 This White Paper details the Government s 10 year reform programme for secondary and post secondary education for 14 19 year olds and sets out its response to the recommendations of the Tomlinson report Working Group on 14 19 Reform final report available at www.14-19reform.gov.uk published in October 2004 Proposals include i retention of GCSEs and A levels as the cornerstones of the education system rather than adopting a universal baccalaureate style qualification but making improvements such as ensuring it is impossible to get a GCSE grade C or above without functional numeracy and literacy skills promoting science GCSEs allowing the most able A level students to take HE modules in the sixth form and reducing the assessment burden at A level ii introducing new specialised Diplomas covering both academic and vocational subjects as well as work experience at three levels equivalent to foundation GCSE and advanced level The first four Diplomas will be available by 2008 for information and communication technology ICT engineering health and social care creative and media subjects iii developing a pilot programme for 14 16 year olds by 2007 08 based on the post 16 Entry to Employment programme which will give pupils intensive personal guidance and support involve significant work based learning lead to a level 1 Diploma with a range of further options including apprenticeships iv other proposals including introducing models of moderated teacher assessment in compulsory subjects to help raise standards across the curriculum and introducing a pupil profile for all 14 year old to record their cross curricula achievements

The English Baccalaureate Great Britain: Parliament: House of Commons: Education Committee,2011-07-28 This report suggests that any new performance or curriculum measures affecting schools should only be implemented after proper consultation with key stakeholders and the wider public something which didn t happen with the English Baccalaureate EBac The Committee says that the Government should also have waited until after the conclusion of the National Curriculum Review before introducing the EBac They want the Government to deliver on its promise in the White Paper The Importance of Teaching to use performance tables to put greater emphasis on the progress of every child The report notes that certain academic subjects studied at A level are more valued by Russell Group universities than others but argues that a focus on a fairly

narrow range of subjects demanding considerable curriculum time is likely to have negative consequences on the uptake of other subjects The Committee does not make recommendations on which subjects should or should not be included but rather encourages the Government to reconsider the EBac s composition when the National Curriculum Review is concluded The Government should confirm how it will monitor the attainment of children on free school meals in the EBac The report also calls for further international evidence to inform debate on the merits of the EBac evidence the inquiry received did not suggest a link in other countries between the prescribed study of certain academic subjects and improved attainment and prospects for poorer students Elsewhere the report argues that the current arrangements for certification of the EBac should be shelved as should calls for a Technical Baccalaureate to sit alongside the existing award The School Science Review ,2007 **Resources in Education** ,1998-04 *A Good School for Every Child* Cyril Taylor,2009-02-10 This book offers an insider s look at some of the key challenges in education and is an invaluable guide for parents and teachers interested in how our schools work today New WJEC GCSE Science Double Award - Revision Guide (with Online Edition) CGP Books,2018-10 **Society of Engineers, London** Society of Engineers (London, England),1986 Nurturing Independent Thinkers Michael Bosher,2005-10-01 St John s School and Community College in Wiltshire made headline news this year In challenging old ideas about homework and the National Curriculum St John s has developed its own integrated curriculum based on learning to learn managing information managing situations relating to people global citizenship a curriculum designed to equip learners with the skills and knowledge they need to thrive in the real world The success of this new approach has resulted in improved academic progress better behaviour greater learning opportunities increased confidence more responsible learners Nurturing Independent Thinkers is both a practical guide to the implementation of the St John s curriculum and a realistic account of the journey taken by the staff and students involved **Statutes of the University of Cambridge and Passages from Acts of Parliament Relating to the University** University of Cambridge,1988 *The Essentials of GCSE Double Award* Mary James,2002 *Journal and Transactions* ,1987 *Annual Report* Royal Society (Great Britain),1990 **Regional Trends** ,2008
