Gustafson, 1996 In his 1994 *A Sense of the Divine The Natural Environment from a Theocentric Perspective* James M Gustafson offered a long awaited application of his theocentric ethics In *Intersections* Gustafson continues to insist that theology and theological ethics must overlap with other diverse fields of study particularly the hard sciences if they are to remain rich vital and relevant in the years ahead With trademark clarity he relentlessly pursues the fundamental questions of theological ethics the nature of being human what distinguishes us from other species how our self interest conflicts with our sympathy and concern for others and the role of religious faith After contrasting two interpretations of human nature one from theologian Reinhold Niebuhr the other from biologist Melvin Konner Gustafson suggests four modes of moral discourse about medicine then examines styles of religious reflection in

Wilson, 2015-06-25 Excerpt from *Thoughts on Science Theology and Ethics* The object of this little book is to give a correct sketch of the main lines of modern thought in small compass and in language simple enough to be easily understood It is intended specially for those who taking an interest in the subject of it have not leisure to study the large and learned books in which they are treated From this it will be apparent that no claim is made to originality of thought The writer will be quite satisfied if his readers are led to take greater interest in the grand principles of Science Theology and Ethics and are aided in forming clearer conceptions of them The following words are defined in the sense intended by the writer although they may be used by others in senses different from his About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Catholic Theological Ethics Todd A.

Salzman, Michael G. Lawler, 2015-11-23 This book has two objectives one explicit and one implicit The explicit objective is to explore the normative implications for both general and sexual ethics of the methodological and anthropological developments in Catholic tradition The implicit objective is to stimulate dialogue in the Church about ethics particularly sexual ethics a dialogue that must necessarily include all in the communion Church laity theologians and hierarchy Since we believe that genuine and respectful dialogue about sexual morality is sorely needed to clarify Christian truth today we intend this book to be part of that genuine dialogue
