Reid,Karen-Beth G. Scholthof,David D. Vail,2023-09-11 Ask not what science can do for you but what public history can do for science *Interpreting Science in Museums and Historic Sites* stresses the untapped potential of historical artifacts to inform our understanding of scientific topics It argues that science gains ground when contextualized in museums and historic sites Engaging audiences in conversations about hot topics such as health and medical sciences or climate change and responses to it mediated by a history museum can emphasize scientific rigor and the time lag between discovery and confirmation of societal benefit *Interpreting Science* emphasizes the urgency of this work provides a toolkit to start and sustain the work shares case studies that model best practice and resources useful to facilitate and sustain a science infused public history

Professional Learning in a School-Based Community of Science Teachers Wayne Melville,2010-01-01 The ubiquitous science department occupies an unusual position in most secondary schools Traditionally they have been part of the organisational structure of schools with administrative responsibilities over room allocations teaching assignments and the management of laboratory equipment These are important roles but they only tell half the story Science teachers are more than members of an organisational structure They are also members of a science education community which is shaped by their shared understanding of science The science department as community also possesses a pivotal if undervalued role in teacher professional learning This book conceptualises professional learning as the engagement of teachers in a virtues based personal reflection and or public discourse around the episteme techne and phronesis in the spaces in between the metaphors of understanding community meanings practice and identity As such it speaks to heads of science departments school administrators and those with an interest in leadership within schools
