

3. Enter questions into the bank.
You can add up to 250 questions per question bank using some or all of the available question types (e.g., true/false, multiple-choice, short answer, etc.).
4. Optionally, change the layout of the question bank.
5. Save the question bank.
6. Print the question bank.

TIP

Use the *Preferences (Editing)* options to set the default multiple choice format (number of choice and columns) and the default matching format (choices, questions and columns).

Opening a Question Bank

You can automatically open question bank files from previous versions of the ExamView Test Generator program. However, once you save a question bank using the new version, you cannot open that file with an older version. It is recommended that you use a different file name.

1. Click the **Open Question Bank** icon from the toolbar or click **File** from the menu bar and select **Open Question Bank**. If you just opened the program or switched to the Question Bank Editor, you can select **Open an existing question bank** from the Welcome screen.
2. Navigate to the saved question bank.
3. Select the **question bank** and click **Open**.
4. If you assigned a password to the question bank, you will be prompted to enter the password before you can continue.

Checking for Content Updates

Publisher-provided question banks and tests are periodically updated to keep state standards and question content current. You can check for content updates as often as you like.

WARNING

Downloaded content will overwrite your existing question banks, state standards within your question banks, and publisher-created tests (depending on the update type). To avoid losing changes you may have made to your question banks or the publisher test files, it is recommended that you make a backup copy of your existing question banks and publisher tests and save them in a different folder.

An active internet connection is required to download content updates.

1. Click **Help** from the menu bar and select **Check for Content Updates**.
2. Click the folder buttons to locate the folder that includes the publisher question banks and tests that you want to update.

NOTE

ExamView checks for content updates by comparing the question banks and tests on your hard drive or network with the updates available online. Make sure that you locate the folder that includes the question banks that you wish to update before checking for updates. You can change the default folder location in the Preferences.

3. Click **OK**.
