Mark Solovey

Science Textbook Controversies And The Politics Of Equal Time:

Science Textbook Controversies and the Politics of Equal Time Dorothy Nelkin, 1978 *Fear and Schooling*

Ronald W. Evans, 2019-09-23 By exploring the tensions impacts and origins of major controversies relating to schooling and curricula since the early twentieth century this insightful text illustrates how fear has played a key role in steering the development of education in the United States Through rigorous historical investigation Evans demonstrates how numerous public disputes over specific curricular content have been driven by broader societal hopes and fears Illustrating how the population s concerns have been historically projected onto American schooling the text posits educational debate and controversy as a means by which we struggle over changing anxieties and competing visions of the future and in doing so limit influence of key progressive initiatives Episodes examined include the Rugg textbook controversy the 1950s crisis over progressive education the MACOS dispute conservative restoration culture war battles and corporate school reform In examining specific periods of intense controversy and drawing on previously untapped archival sources the author identifies patterns and discontinuities and explains the origins development and results of each case Ultimately this volume powerfully reveals the danger that fear based controversies pose to hopes for democratic education This informative and insightful text will be of interest to graduate and postgraduate students researchers and academics in the fields of educational reform history of education curriculum studies and sociology of education **Creationism USA** Adam Laats, 2020-09-24

Creationism USA reveals how common misconceptions about creationism have led Americans into a century of unnecessary culture war histrionics about evolution education and creationism Adam Laats argues that Americans do not have deep fundamental disagreements about evolution but that they do have significant disagreements about creationism **Creationism USA** both explains the current state of America s battles over creationism and offers a nuanced yet straight forward prescription to solve them [Social Science for What?](#) Mark Solovey, 2020-07-07 How the NSF became an important yet controversial patron for the social sciences influencing debates over their scientific status and social relevance In the early Cold War years the U S government established the National Science Foundation NSF a civilian agency that soon became widely known for its dedication to supporting first rate science The agency s 1950 enabling legislation made no mention of the social sciences although it included a vague reference to other sciences Nevertheless as Mark Solovey shows in this book the NSF also soon became a major albeit controversial source of public funding for them Solovey s analysis underscores the long term impact of early developments when the NSF embraced a scientistic strategy wherein the natural sciences represented the gold standard and created a social science program limited to hard core studies Along the way Solovey shows how the NSF s efforts to support scholarship advanced training and educational programs were shaped by landmark scientific and political developments including McCarthyism Sputnik reform liberalism during the 1960s and a newly energized conservative movement during the 1970s and 1980s Finally he assesses the NSF s relevance in a post truth era

questions the legacy of its scientistic strategy and calls for a separate social science agency a National Social Science Foundation Solovey's study of the battles over public funding is crucial for understanding the recent history of the social sciences as well as ongoing debates over their scientific status and social value

A Guide to the Culture of Science, Technology, and Medicine Paul T. Durbin, 1984

Evangelicals and Science Michael Roberts, 2008-03-30 Most people when they think about the purported conflict between science and religion would most likely think first of evangelical Protestantism Because of the prominent place evolution versus creationism and such events as the Scopes Trial has had in the debates over science and religion many people think of evangelicals as hostile to science As with other volumes in the Greenwood Guides to Science and Religion series this work addresses the more complex interworkings between modern science and evangelical Christianity Evangelicals and Science provides a thorough overview of the history of the relationship between these two dominant forces in public life including chapters on evangelicals the Bible and science evangelicals and geology the rise of Creationism and evangelicals and modern science The volume includes primary source documents to give readers a flavor of the writings of evangelicals on science a timeline and an annotated bibliography From publisher's description

Book Review Digest, 1988

Schoolhouse Politics Peter B. Dow, 1991 Schoolhouse Politics tells the story of an experiment in curriculum design that was developed in the 1960s and called Man A Course of Study MACOS In an attempt to teach anthropology to ten year olds Jerome Bruner and his colleagues designed an elementary school course that combined fieldwork on the social behaviour of baboons a film based ethnographic study of an Eskimo tribe and hands on classroom materials MACOS was hailed as an original and exciting way to promote science literacy and to teach young people how to think like social scientists Teachers and students alike expressed enthusiasm for the course and it achieved nationwide distribution and widespread recognition as one of the outstanding social science curriculum projects of the period Yet by 1975 MACOS had been driven from the schools a casualty of a small but vocal group of conservatives critical of its content and methodology

Science for the People, 1981

[Religion and Political Behavior in the United States](#) Ted G. Jelen, 1989-06-26 The 1988 Election year showcasing two ordained ministers seeking presidential nomination made it apparent that religion is an important force on the U S political landscape The result of such visible roles by religious elites raises many questions including the boundaries between the sacred and the secular the size and importance of various politico religious constituencies and the effectiveness of religiously based elite mass communications In response political scientists are devoting an increasing amount of time to studying the interaction of religion and politics Taking the first step toward answering these questions Religion and American Political Behavior is a collection of 15 articles written by prominent political scientists Reflecting the current state of research the articles are diverse and eclectic They are all written from a behavioral perspective and are based on a careful collection of empirical data

This collection contains a variety of substantive findings that will be of particular value to students and scholars in the social sciences religion and political science The book is divided into three parts The first part deals directly with the methodological difficulties of measuring religious phenomena This section also serves as an introduction to students or scholars with little background in this field The second part constituting the body of the work confronts the question of how religion affects the political attitudes and beliefs of ordinary citizens The final part is unique to this collection Entitled Elite Perspectives it consists of seven articles with a common theme the impact of religion on the political behavior of elite members of society including journalists lobbyists public officials political contributors and clergy

Science and Creation Robert W. Hanson, 1986 This book provides working examples of how different teachers scientists and theologians have dealt with problems of creation science versus evolutionary concepts A 1982 symposia on the topic of science and creation was so well received that the participants were asked to submit formal presentations this book is a collection of these papers The papers include 1 Introduction Science or Belief a False Dichotomy Robert W Hanson 2 The Age of the Earth of Life and of Mankind Geology and Biblical Theory versus Creationism James W Skehan S J 3 Science Rationality and the Creation Evolution Dispute Dorothy Nelkin 4 Science versus Revealed Truth Meeting the Challenge of Creationism in the Classroom Wayne Moyer 5 Creationism in Iowa Two Defense Strategies Stanley Weinberg 6 Creationism in Kentucky The Response of High School Biology Teachers William E Ellis 7 a Two Model Creation versus Evolution Course William M Thwaites 8 Educational Approaches to Creationist Politics in Georgia Kenneth Saladin 9 Creation Evolution or Both A Multiple Model Approach Craig E Nelson 10 Skepticism Another Alternative to Science or Belief Stephen G Brush and 11 The Creationism Issue a Theologian's View Langdon Gilkey Included in the appendices are The Arkansas Creation Science Statute Act 590 of 1981 and Creationism in Schools The Decision in McLean versus the Arkansas Board of Education Tw

The Origin of Species Revisited: Philosophy of science, philosophy of religion, history, education, and constitutional issues Wendell R. Bird, 1989 **But is it Science?** Michael Ruse, 1988 Essays dealing with the nature of science and the Evolution Creationism controversy *The Study of Politics and Education*, 1980 **Library Lit**, 1988 **Working Papers**, 1987

Connecting Science, Technology, and Society in the Education of Citizens John J. Patrick, Richard C. Remy, 1985 Designed to help educators address science related social issues this publication considers 1 major challenges associated with science related social issues 2 the extent to which these challenges are being met 3 ways in which educators can improve the education of citizens in science technology and social issues and 4 promising practices that can contribute to building connections between social studies and science curricula Three challenges outlined in the first of five sections include 1 informing citizens about complex social issues and decisions 2 connecting diverse fields of knowledge in school curricula and 3 resisting antagonists of science and technology In order to determine the extent to which these challenges are currently being met the second section examines goal statements in curriculum reports and major reports in the social

studies and the sciences research findings on student knowledge and attitudes regarding science technology and society and analyses of current curricula and textbooks The third section describes ways in which integrative threads can be used to provide common learning experiences within and between distinct courses in the social studies and sciences The fourth section presents promising practices that can contribute to this building of connections between social studies and science curricula the use of decision trees and case studies the use of role play and simulation and the use of instructional television and microcomputers Concluding observations in the final section and a bibliography listing over 170 publications conclude the document LH *Scientific American* ,1982-07 Monthly magazine devoted to topics of general scientific interest

Technological Decisions and Democracy Dorothy Nelkin,1977-10 Using data from European experiments permitting the public to help determine the usage of technological innovation Dorothy Nelkin provides information on a process involving difficult social choices She examines the question of whether the public should be entitled to a say in determining the impact of technological processes on their daily lives She details individual government efforts to promote broader public participation in decision making The book will be of value to all those concerned with the social and policy dimensions of science and technology Professor Nelkin s essay is written with the clarity and precision characteristic of her earlier writings Apart from its value as a summary of information not readi

As recognized, adventure as skillfully as experience just about lesson, amusement, as with ease as concurrence can be gotten by just checking out a book **Science Textbook Controversies And The Politics Of Equal Time** as a consequence it is not directly done, you could take even more roughly speaking this life, just about the world.

We allow you this proper as capably as simple mannerism to get those all. We find the money for Science Textbook Controversies And The Politics Of Equal Time and numerous book collections from fictions to scientific research in any way. in the midst of them is this Science Textbook Controversies And The Politics Of Equal Time that can be your partner.
