<u>Realistic Hope</u> Angela Wilkinson,Betty Sue Flowers,2025-10-01 We are running out of water robots will take our jobs we are eating ourselves to an early death old age pension and health systems are bankrupting governments and an immigration crisis is unravelling the European integration project A growing number of nightmares perfect storms and global catastrophes create fear of the future One response is technocratic optimism well invent our way out of these impending

crises Or well simply ignore them as politically too hot to handle too uncomfortable for experts denied until crisis hits History is littered with late lessons from early warnings Cynicism is an excuse for inaction Populism flourishes in the depths of despair Despite the gloom there is another way to look at the future We don't have to be pessimistic or optimistic we can find realistic hope This book is written by an international and influential collection of future shapers It is aimed at anyone who is interested in learning to refresh the present forge new common ground and redesign the future Current Research in Library & Information Science, 1984 Southeast Asia Catalog: Vernacular monographs: Burma, Cambodia, Vietnam, Chinese, Japanese, other language monographs; serials: Asia, Burma, Cambodia Cornell University.
