Debus, 2006 There are some who would question the need to republish papers that have already appeared elsewhere Walter Pauer once said that scholars should think in terms of books rather than research papers since the latter become lost in the literature When he told me this year ago I was not entirely convinced Surely the young scholar must publish papers to secure his academic position In addition throughout his career he attends conferences many of which will require the publication of his papers in the

resultant conference volumes By their very nature such papers often discuss topics in greater detail than that scholar s subsequent books In this case also the papers tend to become lost even when there exit extensive guides to the literature such as the Critical Bibliography published annually in Isis for historians of science Many of my own papers over the past forty five years have indeed appeared in such conference volumes as in journals *Literatur lexikon: Fri-Hap* ,1988
