I have revised and corrected the letterpress and have added some illustrations. A smaller volume containing earlier papers was published by Messrs Constable in 1908 with the title *From an Easy Chair*. It is my intention now to produce additional volumes under the title *Easy Chair Series* as their constituent articles accumulate and I hope to be able to publish a second and a third instalment at no distant date. I have

given in this as in the earlier volume some figures in illustration of the articles and have here and there revised and expanded the originals It must be remembered that these papers are strictly speaking occasional There is no attempt to treat any subject in a complete or detailed way The chapters are purposely arranged so as to produce a variegated result a mixed assortment in which it is hoped that readers of differing interests may find each something to his taste I hope that some may be led by the reading of one of my short chapters to look further into the matter of which it treats and to consult more thorough going treatises abounding in details and pictures which are beyond the scope of this little volume About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
