**Ace Your Space Science Project** Robert Gardner, Madeline Goodstein, 2009-08-01 Why doesn't the Moon fall to Earth? Why do the seasons change? What is parallax? How can you simulate weightlessness on Earth? Young scientists will explore the solar system through applied space science, answering questions about space. The far-out space experiments in this book will help students make a model of a lunar eclipse, build a spectroscope, and more. Many experiments include ideas students can use for science fair projects. **Build It, Make It, Do It, Play It!** Catharine Bomhold, Terri Elder, 2014-06-30 A valuable one-stop guide to collection development and finding ideal subject-specific activities and projects for children and teens. For busy librarians and educators finding instructions for projects, activities, sports, and games that children and teens will find interesting is a constant challenge. This guide is a time-saving one-stop resource for locating this type of information, one that also serves as a valuable collection development tool that identifies the best among thousands of choices and can be used for program planning, reference, and readers advisory and curriculum support. **Build It, Make It, Do It, Play It** identifies hundreds of books that provide step-by-step instructions for creating arts and crafts, building objects, finding ways to help the disadvantaged, or engaging in other activities ranging from gardening to playing games and sports. Organized by broad subject areas: arts and crafts, recreation, and sports, including indoor activities and games, and so forth, the entries are further logically organized by specific subject, ensuring quick and easy use. **Science Fair Projects For Dummies** Maxine Levaren, 2011-05-04 Uh-oh, now you've gone and done it: you volunteered to do a science fair project. Don't sweat it: presenting at a science fair can be a lot of fun. Just remember: the science fair is for your benefit. It's your chance to show that you understand the scientific method and how to apply it. Also, it's an opportunity for you to delve more deeply into a topic you're interested in. Quite a few scientists, including a few Nobel laureates, claim that they had their first major breakthrough while researching a science fair project. And besides, a good science fair project can open a lot of doors academically and professionally, but you already knew that. Stuck on what to do for your science project? This easy-to-follow guide is chock-full of more than 50 fun ideas and experiments in everything from astronomy to zoology. Your ultimate guide to creating crowd-pleasing displays, it shows you everything you need to know to choose the best project idea for you. Make sure your project idea is safe, affordable, and doable. Research, take notes, and organize your facts. Write a clear, informative research paper. Design and execute your projects. Ace the presentation and wow the judges. Science fair guru Maxine Levaren gives you step-by-step through every phase of choosing, designing, assembling, and presenting a blue ribbon science fair project. She gives you the inside scoop on what the judges are really looking for and coaches you on all the dos and don'ts of science fairs. And she arms you with in-depth coverage of more than 50 winning projects, including projects involving experiments in virtually every scientific discipline. Computer projects that develop programs to solve a particular problem or analyze system performance. Engineering projects that design and build new devices or test existing devices to compare and analyze.
