## Smart Home Sat Practice Today:

**Planetary Loves** Stephen D. Moore, Mayra Rivera, 2011 Postcolonial theology has recently emerged as a site of intense intellectual and political energy and has taken its place in the interdisciplinary field of postcolonial studies This volume is animated by the conviction that postcolonial theology is now ready for a second deeper phase of engagement with postcolonial theory one that moves beyond the general to the specific No critic has been more emblematic of the challenging and contested field of postcolonial theory than Gayatri Chakravorty Spivak In this volume the product of a theological colloquium in which Spivak herself participated theologians and biblical scholars engage with her thought in order to catalyze a diverse range of original theological and exegetical projects The volume opens with a topography of postcolonial theology and also includes other valuable introductory essays At the center of the collection are transcriptions of two extended public dialogues with Spivak on theology and religion in general A further dozen essays appropriate Spivak's work for theological and ethical reflection The volume is also significant for the larger field of postcolonial studies in that it is the first to focus centrally on Spivak's immensely suggestive and vital concept of planetarity Digital Materialities Sarah Pink, Elisenda Ardèvol, Dèbora Lanzeni, 2020-05-26 As the distinction between the digital and the material world becomes increasingly blurred the ways in which we think about design are also shifting and evolving How can the human digital and material be brought together to intervene in the world What constitutes our digital material environments How can we engage with digital technologies to make sustainable healthy and meaningful decisions both now and in the future Digital Materialities presents twelve chapters by scholars and practitioners working at the intersection between design and digital research in the UK Spain Australia and the USA By incorporating in depth understandings of the digital material world from both the social sciences and design the book considers how this combined knowledge might advance our capacity to design for the future Divided into three parts the focus of the book moves from the theoretical to the practical how different digital materialities are imagined and emerge through software emulation urban sensors and smart homes how new digital designs are sparked through collaborations between social scientists and designers and finally how digital design emerges from the insider work of everyday designers A fascinating ground breaking book for students and scholars of digital anthropology media and communication and anyone interested in the future of digital design *Der Einfluss des wahrgenommenen Alterns auf die Akzeptanz von Smart-Home-Technologien* Eichner, Andreas, 2021-08-31 Die bis dato eher verhaltene Nachfrage nach Smart Home Systemen gibt Anlass zu der Frage nach den möglichen Adoptionsbarrieren In Anbetracht des potentiellen Nutzens dieser Technologien für das Leben der Bewohner besonders auch im fortschreitenden Alter besteht darüber hinaus Forschungsbedarf ob und in welcher Art sich das Altern auf die Technologieakzeptanz auswirkt Insbesondere sind auf subjektiver Wahrnehmung basierende Alterskonstrukte bisher kaum im Zusammenhang mit der Technologieadoption untersucht worden Die Arbeit befasst sich mit den Determinanten der Akzeptanz von Smart Home

Anwendungen seitens potentieller bernehmer anhand popul rer Theorien und Modelle zum individuellen Adoptionsverhalten und mit Blick auf die Einflusswirkung des chronologischen Alters bzw des subjektiv empfundenen Alterns Das gew hlte Untersuchungsmodell basiert auf dem in der wissenschaftlichen Forschung weit verbreiteten und empirisch bew hrten Technology Acceptance Model Davis Bagozzi Warshaw 1989 Zus tzlich werden alternativ externe Variablen in Form des chronologischen Alters bzw der Future Time Perspective Carstensen Lang 1996 einbezogen um insbesondere die Wirkung auf den wahrgenommenen Nutzwert und die empfundene Einfachheit der Nutzung von Hausautomatisierung zu untersuchen Betrachtet werden zudem Mediator und Moderatoreffekte hinsichtlich der nachgelagerten Einstellungsbildung und bernahmeintention Die Ergebnisse st tzen die Hypothese dass die subjektive Future Time Perspective mit Blick auf die im Leben verbleibenden M glichkeiten einen gr eren Erkl rungsbeitrag zur individuellen Adoption von Smart Home Systemen leisten kann als das chronologische Alter

The Semantic Web: ESWC 2021 Satellite Events Ruben Verborgh, Anastasia Dimou, Aidan Hogan, Claudia d'Amato, Ilaria Tiddi, Arne Bröring, Simon Mayer, Femke Ongenaes, Riccardo Tommasini, Mehwish Alam, 2021-07-20 This book constitutes the proceedings of the satellite events held at the 18th Extended Semantic Web Conference ESWC 2021 in June 2021 The conference was held online due to the COVID 19 pandemic During ESWC 2021 the following six workshops took place 1 the Second International Workshop on Deep Learning meets Ontologies and Natural Language Processing DeepOntoNLP 2021 2 the Second International Workshop on Semantic Digital Twins SeDiT 2021 3 the Second International Workshop on Knowledge Graph Construction KGC 2021 5 the 6th International Workshop on eXplainable SENTiment Mining and Emotion deTectioN X SENTIMENT 2021 6 the 4th International Workshop on Geospatial Linked Data GeoLD 2021
