Narrative Theory in Journalistic Practice Yngve Benestad Hågvar, Harald Hornmoen, Jørgen Alnæs, 2025-11-28
Narrative Theory in Journalistic Practice provides innovative analytical frameworks for examining journalistic narratives in today's digital multimodal media landscape. The volume expands beyond traditional models focused on linear texts to address contemporary formats across multiple platforms. Through empirical analyses of genres such as immersive long form stories, live news reports, social media news, podcasts, and still images, the book explores the dual function of journalistic narratives: they are suited to engage readers in both trivial and complex events and issues but will also advance certain interpretations of reality and downplay others. The book conveys a critical and constructivist view on narratives showing how journalistic stories contribute to shaping people's understanding of reality but also how media users play an active role in interpreting the narratives. The volume will interest students and scholars of journalism, media studies, and narrative studies. It is intended for use by graduate students as well as by established researchers.

Investigate the Impact of Short Video on Young Consumers' Purchasing Behavior in Taipei Through Experiment, Implications for Marketers Nguyen Thi Phi Nga, 2025-03-20
In the age of increasingly developed technology, buying through short videos on social networking sites is no longer a new thing. The trend of selling through short videos is increasingly expanding, but not everyone achieves sales efficiency because they do not understand the purchase behavior of consumers through short videos. This study focused on evaluating the impact of short videos on consumer purchasing behavior in Taipei. The data was collected from 200 people, including students and workers aged 18-35 living and working in Taipei. After analyzing and processing the data using SPSS software, the study identified video content, celebrity influence, product information, and perceived value that influenced consumers' short video purchase behavior. These results can provide important management implications for businesses and sellers in building marketing strategies that use short videos to increase influence and drive consumer purchasing decisions.
