Private Rich A Family Album:

Private Pictures Janina Struk, 2020-09-14 Snapshots taken by American soldiers of Iraqi prisoners stripped naked humiliated and tortured shocked the world in 2004 and more have followed from the conflict in Afghanistan but whether the public have been horrified by the soldiers conduct or the fact they have taken pictures has not been clear In fact as this remarkable book reveals and relates soldiers have taken photographs of war and its atrocities for more than 100 years But their pictures are private intended mainly for the soldiers themselves as mementoes or as attempts to make sense of the chaos brutality and boredom of war They can be gruesome or sociable shocking or mundane and they are seldom regarded as serious contributions to a visual culture of war which since 1939 has been dominated by professional war photography But with the 21st century shift to simple digital photography transmission by the internet available to all and a new citizen journalism soldiers pictures are acquiring a new resonance Private Pictures traces this unacknowledged genre of photography from the origins of popular photography in the Boer War through to the present day it discusses how the images have been used and it asks what effect might the wider appreciation of soldiers pictures have on the popular perception of war

Sentimental State(s) Heike Paul, Sarah Pritz, 2025-08-12 The word state has a double meaning signifying both a condition and a political entity Starting from this observation the contributors to this volume provide a cross cultural and cross media discussion of the role of the sentimental in political culture In their case studies from all over the world they focus on affective politics of order and belonging in processes and constellations of community building They analyze sentimental encodings used in symbolic interactions ranging from foundational narratives and state orchestrated public rituals to visualizations of citizenship and protest movements

Shadow Traces Elena Tajima Creef, 2022-04-12 Images of Japanese and Japanese American women can teach us what it meant to be visible at specific moments in history Elena Tajima Creef employs an Asian American feminist vantage point to examine ways of looking at indigenous Japanese Ainu women taking part in the 1904 Louisiana Purchase Exposition Japanese immigrant picture brides of the early twentieth century interned Nisei women in World War II camps and Japanese war brides who immigrated to the United States in the 1950s Creef illustrates how an against the grain

Through a variety of case studies by global scholars from diverse academic fields this book explores photographic album practices of historically marginalized figures from a range of time periods geographic locations and socio cultural contexts Their albums stories span various racial ethnic gender and sexual identities nationalities religions and dis abilities The vernacular albums featured in this volume present narratives that move beyond those reflected in our existing histories Essays examine the visual material and aural strategies that album makers have used to assert control over the presentation of their histories and identities and to direct what those narratives have to say a point of special relevance as these albums move out of private domestic space and into public archives institutions and digital formats This book does not consider photographic albums and scrapbooks as separate genres but as a continuum of modern creative practices of photographic and mass print collage aimed at self expression and narrative building that co evolved and were readily accessible The book will be of interest to scholars working in art history history of photography visual culture material culture media studies and cultural studies **New York Magazine** ,1984-12-03 New York magazine was born in 1968 after a run as an insert of the
