Private Wants And Public Needs:

Finanzwissenschaft Norbert Andel,1998 **Staatsschulden und Staatstätigkeit** Philip Mehrrens,2014-11-06
Schweden war lange Zeit unangefochtenes Vorbild für sozialdemokratische Wohlfahrtsstaaten Doch seit den 1990er Jahren finden auch dort Staatsabbau Privatisierungen sowie eine Risikoverlagerung vom Staat auf das Individuum statt Schweden entwickelt sich in Richtung eines liberalen Modells mit staatlicher Grundsicherung und privater Aufstockung Die Analyse von Finanzkrisen Reformmaßnahmen und Transformationsprozessen der politischen ökonomie Schwedens von 1970 bis heute öffnet den Blick für die Debatten über die Schuldenkrise des Staates und den institutionellen Wandel in entwickelten Wohlfahrtsstaaten

Rhoads,2021-10-21 A thought provoking tour of the economist's mind using non technical language and relevant political examples throughout Contractual Relations David Campbell,2022-09-15 Written by one of the leading contributors to the relational theory of contract Contractual Relations authoritatively explains the form of the existing law of contract by relating it to its economic legal and sociological foundations This volume demonstrates that economic exchange and legal contract rest on a moral relationship by which each party legitimately pursues its self interest through recognition of the self interest of the other This essential relationship of mutual recognition is in stark contrast to the pursuit of solipsistic self interest that is central to the classical law of contract Self interest of this sort is not morally defensible nor does it enhance economic welfare It is for these reasons that the classical law is legally incoherent The fundamental inadequacies of the classical law's treatment of agreement consideration and remedy have emerged as the doctrines of the positive law of contract have been progressively developed to give effect to the relationship of mutual recognition The welfarist criticism of the classical law has however failed to develop a workable concept of self interest and so is at odds with what must be retained from the classical law's facilitation of economic exchange and the market economy The relational law of contract restates self interest in a morally economically and legally attractive manner as the foundation of the social market economy of liberal socialism Contractual Relations is a fundamental critique of the classical law of contract and the welfarist response to the classical law and a major statement of the relational theory of contract This is an essential work for academics advanced students and others wishing to understand the fundamental law economics and sociology of contract and exchange The Science of Finance Henry Carter Adams,1898
