Privatization in Eastern and Central Europe

Objectives, Constraints, and Models of Divestiture

Farid Dhanji
and
Branko Milanovic

The privatization process must be seen as transparent and absolutely above reproach and the rules of the "market" game must be clearly enunciated and adhered to in divestitures. Improvements in economic performance will be considerably diluted if the new market economy is based on an extensive network of special privileges.

Privatization In Eastern Europe A Critical Approach:

Privatization in Eastern Europe Iván Major, 1993 The task of turning the state owned assets of the Eastern European countries over to private ownership is one of the most challenging of our time both intellectually and in practical terms Ivan Major s in depth critique of the plans and programmes of the East European governments addresses the core issues of privatization from the perspective of both potential winners and losers After discussing the analytical framework he offers an assessment of the legacy of the command economy and includes individual country studies of Czechoslovakia the former GDR Hungary Poland and the former Soviet Union The following chapters look at the theoretical political and economic underpinning as well as assessments of the initial results of East European privatizations Dr Major argues that the whole network of political regulation must be dismantled if an efficient market economy is to emerge Privatization in Eastern Europe offers a critical analysis of the movement towards privatization in Eastern Europe as well as an authoritative assessment of the existing literature This book will be welcomed by scholars and policymakers as an important source of analysis argument and information International Handbook on Privatization David Parker, David S. Saal, 2003-01-01
