Privatization In Europe West And East Experiences:

Privatization, Corporate Governance and the Emergence of Markets E. Rosenbaum,F. Bönker,H. Wagener,2000-03-23 The volume focuses on privatisation in transition countries addressing issues ranging from corporate governance to the relationship between privatisation and the emergence of markets from a multi disciplinary perspective The contributors investigate both the theoretical groundwork of privatisation and enterprise restructuring as well as recent empirical evidence The contributions show that changes in ownership titles are but one part of the story being closely interwoven as they are with the transformation of corporate governance enterprise restructuring network transformation and the emergence of markets

International Handbook on Privatization David Parker,David S. Saal,2003-01-01 Privatization has dominated industrial restructuring programs since the 1980s and continues to do so This authoritative and accessible Handbook considers all aspects of this key issue including the theory of privatization privatization in transition developed and developing economies as well the economic regulation of privatized industries

Privatisation and Structural Change in Transition Economies Yelena Kalyuzhnova,Wladimir Andreff,2003-09-08 Privatisation and Structural Change in Transition Economies brings together specialists from different areas governance regulation macro econometrics micro econometrics enterprise culture foreign direct investment technology transfer to focus on the many different aspects of the privatization process in transition economies The book does not dwell on the administrative or procedural aspects of privatisation Instead it attempts to understand the bigger picture in terms of underlying policy environment and supporting legal and economic measures which helped to a large extent to determine the eventual success or failure of privatization programmes

Transformation der Seeschifffahrt ,2013-07-02 Der Autor zeigt da Privatisierung und Restrukturierung eine Verschlechterung der wirtschaftlichen Situation der betreffenden Reedereien im Ostseeraum und teilweise deren Bankrott nicht verhindern konnten

Industrial Transformation in Eastern Europe in the Light of the East Asian Experience Jeffrey Henderson,Karoly Balaton,Gyorgy Lengyel,2016-07-27 Since 1989 the postcommunist societies of Eastern Europe have been subject to policy advice and political and economic pressure which assumes that the development of free market economies is the best route to economic growth and prosperity The contributors to this volume take issue with this proposition Though working from different theoretical perspectives with different interests they collectively argue that there are better ways to build dynamic and prosperous industrial economies in Eastern Europe than encouraging the respective societies of the region to ape the contents and swallow the myths of the Anglo American form of capitalism The contributors to this volume are among the leading authorities on economic transformation in Eastern Europe

The Institutional Economics of Russia's Transformation Anton N.

Oleinik, 2017-11-30 This book applies institutional theory to the analysis of the post Soviet Russian economy to bring to light the reasons why reforms have gone awry. Emphasis is put on the elements missed in the early blueprints of reforms: constraints embodied in formal and especially informal institutions. Other aspects considered include the dominant model of power relationships and the networks of localized and personalized relationships among economic actors. The first part provides a general description of the core concepts of institutional theory including both the old institutionalism of T Veblen and J Commons and the new institutional economics of R Coase, O Williamson and D North and in the second part an institutional model of the post Soviet Russian economy is developed. In the course of the analysis the authors discuss such unresolved issues as post privatization development in Russia and validity of the Coase theorem in the post Soviet institutional context. Rich empirical data grounds the discussion throughout. **Kleines Lexikon der Politik** Dieter Nohlen, Florian Grotz, 2011. Privatization in Western Europe Vincent Wright, 1994. Privatization though widely publicised in the 80s is not a new phenomenon. The 60s and the 70s provide different examples in several European countries. However in the 80s the rate of privatization increased dramatically. Between 1984 and 1991 the governments of 105 countries sold the equivalent of 250 billion worth of state companies to private investors. **Comparative Experiences with Privatization**, 1995.
