## **Privatizing Public Lands:**

*Privatizing Public Lands* Scott Lehmann, 1995-03-23 In the United States private ownership of land is not a new idea yet the federal government retains title to roughly a quarter of the nation's land including national parks forests and wildlife refuges Managing these properties is expensive and contentious and few management decisions escape criticism Some observers however argue that such criticism is largely misdirected The fundamental problem in their view is collective ownership and its solution is privatization A free market they claim directs privately owned resources to their most productive uses and privatizing public lands would create a free market in their services This timely study critically examines these issues arguing that there is no sense of productivity for which it is true that greater productivity is both desirable and a likely consequence of privatizing public lands or marketizing their management Lehmann's discussion is self contained with background chapters on federal lands and management agencies economics and ethics and will interest philosophers as well as public policy analysts

Privatizing Public Lands Scott Lehmann, 1995 This work critically examines the thesis that public lands would be more productive if they were private or failing that managed as if they were private The discussion includes background chapters on US federal lands management agencies economics and ethics

*Privatizing Governmental Functions* Deborah Ballati, 2001 Offers a discussion and analysis of the procurement process and its political setting strategies for contractors and financing issues This book includes chapters devoted to such areas as public housing correctional facilities waste disposal and more It is useful for attorneys contractors government officials consultants and scholars

Privatization Bibliography, 1989

**The Governance of Western Public Lands** Martin A. Nie, 2008 Examines the conflict surrounding public land management revealing how problematic language in public land laws scarcity of resources and mistrust cloud the debates and offering a range of solutions to help move beyond the dysfunctional status quo management

Forest Resource Policy in Latin America Ronnie de Camino, Julio C. Tresierra, Ramón López, Thomas Kelly, Markku Simula, Kari Keipi, Carlos Felipe Jaramillo, Olli Haltia, Jared J. Hardner, Marc J. Dourojeanni, Jan G. Laarman, Richard Rice, 2000-01-01 Forest Resource Policy in Latin America gathers the thinking of a score of experts on sustainable use and management of forests including incentives for investment The authors tackle the thorny social issues of property rights deforestation and forest management and ownership by indigenous people and take a hard look at the trade and environmental issues in forest production that will affect future directions for sustainable forestry development in Latin America Some argue that the main opportunity to conserve natural forests lies in recognizing and paying for the environmental services they provide In addition compensatory measures such as the establishment and better management of strictly protected areas appear to be the best tools to delay the loss of ecosystems and species Alternative forest concession policies and trade and environmental issues in forest production are also analyzed

Building Something Better Stephanie A. Malin, Meghan Elizabeth Kallman, 2022-04-15 Showing that it is possible to challenge social inequality and

environmental degradation by refusing to continue business as usual Building Something Better shares vivid case studies of small groups who are making a big impact by crafting alternatives to neoliberal capitalism It offers both a call to action and a dose of hope in these troubled times

**108-1 Hearing: Alternative Treatments For Timber, Land Exchange In Arizona, Etc., S. Hrg. 108-196, September 11, 2003, \***,2003 *Privatizing Federal Spending* Stuart M. Butler,1985

**Privatization** United States. President's Commission on Privatization,David F. Linowes,1988 *Environmental Policy* Norman J. Vig,Michael E. Kraft,Barry G. Rabe,2021-01-08 Authoritative and trusted Environmental Policy once again brings together top scholars to evaluate the changes and continuities in American environmental policy since the late 1960s and their implications for the twenty first century Students will learn to decipher the underlying trends institutional constraints and policy dilemmas that shape today s environmental politics The Eleventh Edition examines how policy has changed within federal institutions and state and local governments as well as how environmental governance affects private sector policies and practices There are five new chapters in this edition that examine the public s opinion on the environment courts energy policy natural resource agencies and policies and the political economy of green growth The book has been updated to reflect the Trump administration s four years of policy changes and students will walk away with a measured yet hopeful evaluation of the future challenges that policymakers will confront as the American environmental movement continues to affect the political process *Entrepreneurship and the Privatizing of Government* Calvin A. Kent,1987-06-23 The chapters in this anthology combine discussion of two currently hot topics in public administration privatization and entrepreneurship Perhaps the most attractive aspect of this book is that it is not merely an unbridled emotional paean to privatization and entrepreneurship but an objective introduction to these issues The editor selects an array of essays that address not only theory and practice but also the pragmatic issues and problems associated with implementing these new policy initiatives This book would be a welcome addition to libraries wishing to remain current with the expanding literature on privatization and entrepreneurship Choice Privatization encompasses the many ways in which the private sector assumes functions that were previously the province of government These may range from the sale of state enterprises to contracts with private firms to provide governmental services In each case services which were once subsidized to some extent by the government are instead offered by the private sector at prices reflecting their actual cost This collection of original essays by internationally recognized scholars in economics government and management provides a readable state of the art discussion of the promises and problems of privatization In addition to synthesizing current data and experiences in the field of private entrepreneurship this collection of articles breaks new ground by suggesting innovative areas for private activity in the public sector *Privatization of Property Rights and Rangeland Resource-use* Dick Sserunkuma,1998
