Problem Miracle In Primitive Christianit:

The Problem of Miracle in Primitive Christianity Anton Fridrichsen, 1972 *Apocalypticism, Prophecy and Magic in Early Christianity* David Edward Aune, 2006 Collection of texts published previously *Religion (Vorkonstantinisches Christentum: Verhältnis zu römischem Staat und heidnischer Religion, Fortsetzung)* Hildegard Temporini, Wolfgang Haase, 2016-09-26 Keine ausführliche Beschreibung für Religion Vorkonstantinisches Christentum Verhältnis zu römischem Staat und heidnischer Religion Fortsetzung verfügbar [Ferdinand Christian Baur and the History of Early Christianity](#) Martin Bauspiess, Christof Landmesser, David Lincicum, 2017-02-17 Ferdinand Christian Baur 1792-1860 has been described as the greatest and at the same time the most controversial theologian in German Protestant theology since Schleiermacher. The controversy was epitomized by a nineteenth century British critic who wrote that his theory makes of Christianity a thing of purely natural origin, calls in question the authenticity of all but a few of the New Testament books and makes the whole collection contain not a harmonious system of divine truth but a confused mass of merely human and contradictory opinions as to the nature of the Christian religion. The contributors to this volume however regard Baur as an epoch making New Testament scholar whose methods and conclusions though superseded have been mostly affirmed during the century and a half since his death. This collection focuses on the history of early Christianity although as a historian of the church and theology Baur covered the entire field up to his own time. He combined the most exacting historical research with a theological interpretation of history influenced by Kant, Schelling and Hegel. The first three chapters discuss Baur's relation to Strauss, Müller and Hegel. Then a central core of chapters considers his historical and exegetical perspectives on Judaism and Hellenism, Gnosticism, New Testament introduction and theology, the Pauline epistles, the Synoptic Gospels, John, the critique of miracle and the combination of absoluteness and relativity. The final chapters view his influence by analyzing the reception of Baur in Britain, Baur and Harnack and Baur and practical theology. This work offers a multi-faceted picture of his thinking which will stimulate contemporary discussion. *Maidens, Magic and Martyrs in Early Christianity* Jan N. Bremmer, 2017-07-13 In this work Jan N. Bremmer aims to bring together the worlds of early Christianity and those of ancient history and classical literature worlds that still all too rarely interlock. Contextualising the life and literature of the early Christians in their Greco-Roman environment he focusses on four areas. A first section looks at more general aspects of early Christianity: the name of the Christians, their religious and social capital, prophecy and the place of widows and upper class women in the Christian movement. Second, the chronology and place of composition of the early apocryphal Acts of the Apostles and Pseudo-Clementines are newly determined by paying close attention to their doctrinal contents but also innovatively to their onomastics and social vocabulary. The author also analyses the frequent use of magic in the Acts and explains the prominence of women by comparing the Acts to the Greek novel. Third, an investigation into the theme of the tours of hell suggests a new chronological order shows that the Christian tours were indebted to both Greek and Jewish models and illustrates that in the

course of time the genre dropped a large part of its Jewish heritage The fourth and final section concentrates on the most famous and intriguing report of an ancient martyrdom the Passion of Perpetua It pays special attention to the motivation and visions of Perpetua which are analyzed not by taking recourse to modern theories such as psychoanalysis but by looking to the world in which Perpetua lived both Christian and pagan It is only by seeing the early Christians in their ancient world that we might begin to understand them and their emerging communities Publisher's description
