McDougal,Shelley Friedkin,Tad Watanabe,2022-06-30 Offering voices from the field the first of its kind outside of Japan this
guide to teaching and learning elementary mathematics highlights real case examples from teachers and educators who
share what they have learned through Lesson Study The teachers reports provide vivid examples of new insights and ideas
about mathematics about pedagogy and lesson design about student learning and about professional collaboration gained
through Lesson Study Each report includes an abbreviated plan of the specific research lesson that led to the new insights
which readers can draw from to replicate the powerful learning in their own community The case examples of this book are
from Lesson Study in mathematics elementary to lower secondary grade levels focused on what teachers and educators have
learned about improving mathematics teaching and learning but many ideas from each report can be applied to other
subjects and different grade levels This unique book will be an excellent resource for mathematics teachers in training and
practice who seek to improve mathematics teaching and learning in their own and others classrooms including researchers
