Problem Solving For Oil Painters:

Problem-solving for Oil Painters Gregg Kreutz, 1986 Finally a book to help you solve all your painting problems Inside you ll learn how to study a painting and correct problematic areas Study topics include Ideas Is there a good abstract idea underlying the picture What details could be eliminated to strengthen the composition Does the painting have a focus Are the unessential parts subordinated Does the painting read Could you finish any part of the painting Shapes Are the dominant shapes as strong and simple as possible Are the shapes too similiar Value Could the value range be increased Could the number of values be reduced Light Is the subject effectively lit Is the light area big enough Would the light look stronger with a suggestion of burnout Do the lights have a continuous flow Is the light gradiated Shadows Do the shadow shapes describe the form Are the shadows warm enough Depth Would the addition of foreground material deepen the space Does the background recede far enough Are the halftones properly related to the background Solidity Is the underlying form being communicated Is the symmetry in perspective Color Is there a color strategy Could a purer color be used Do the whites have enough color in them Are the colors overbended on the canvas would the color look brighter if it were saturated into its adjacent area Paint Is your palette efficiently organized Is the painting surface too absorbent Are you using the palette knife as much as you could Are you painting lines when you should be painting masses Are the edges dynamic enough Is there enough variation in the texture of the paint
