Social Problems, 1976 *Whose Welfare?* Steven Michael Teles, 1996 Few American social programs have been more unpopular controversial or costly than Aid to Families with Dependent Children AFDC Its budget now in the tens of billions of dollars has become a prominent target for welfare reformers and outraged citizens Indeed if public opinion ruled AFDC would be discarded entirely and replaced with employment Yet it persists Steven Teles's provocative study reveals why and tells us what we should do about it Teles argues that over the last thirty years political debate on AFDC has been dominated by an impasse created by what he calls ideological dissensus an enduring conflict between opposing cultural elites that have largely disregarded public opinion Thus he contends one must examine the origins and persistence of elite conflict in order to fully comprehend AFDC's immunity to the reform it truly needs the kind that unites the elements of order equality and individualism central to the American creed One of the first studies to analyze AFDC from a New Democrat position *Whose Welfare* sheds new light on the controversial role of the courts in AFDC the rise of welfare waivers in the mid 1980s the failure of the Clinton welfare plan and the victory of block granting over policy oriented welfare reform Teles however goes beyond mere critical analysis to advocate specific approaches to reform His thoughtful call for compromise built around the centrality of work individual responsibility and opportunity offers a means for dissolving dissensus and genuine hope for changing an outdated and ineffectual welfare system Based on interviews with participants in the AFDC policymaking process as well as an unparalleled synthesis of the voluminous AFDC literature *Whose Welfare* will appeal to a wide array of

welfare scholars policymakers and citizens eager to better understand the tumultuous history of this problematic program and how it might fare in the wake of the fall elections
