

aphasia

COMMUNICATING
THROUGH THE BARRIERS.

What is Aphasia?

Aphasia is a language disorder that affects the ability to communicate. It's most often caused by injury to parts of the brain that control speech and language resulting from a stroke.

I need to communicate with someone who has aphasia.

Keep It Simple

Speak in short, simple sentences.

Be Patient

Allow plenty of time for a response. Talk with him/her not for him/her.

Remove Distractions

Turn off radios and TVs.

Be Creative

Try writing, gesturing, pictures and communication tools like an iPad.

Confirm

Repeat back what you think he/she is saying.

People With Aphasia

1. Communicate differently, but they are as smart as they were before.
2. Their hearing is fine; speaking loudly does not help.
3. Aphasia is not contagious! To talk to people with aphasia, you'll just have to communicate differently.

I have aphasia.

Take Your Time

Remember it may take a while to get the words out.

Let People Know What Works Best For You

Do you want a question asked in multiple ways? Let them know.

Use Assistive Devices

Bring photos, diagrams, pen and paper, etc.

Getting Frustrated Is Okay

Don't blame yourself if you get stuck or stumble on your words. Be patient with yourself as you find what works.

If You Get Stuck, You Can

1. Admit you're struggling.
2. Recap what you have discussed so far.
3. Decide whether to carry on or come back to it later.

Problems Of Aphasia

Hereward Carrington

Problems Of Aphasia:

Problems of Aphasia Yvan Lebrun, Richard Hoops, 1979 **Aphasia Rehabilitation** Patrick Coppens, Janet L. Patterson, 2017-01-05 Aphasia Rehabilitation Challenging Clinical Issues focuses on specific aphasia symptoms and clinical issues that present challenges for rehabilitation professionals These topics are typically not addressed as separate topics even in clinical texts This heavily clinical text will also include thorough discussions of theoretical underpinnings For chapters that focus on specific clinical challenges practical suggestions to facilitate clinical application and maximize clinical usefulness This resource integrates theoretical and practical information to aid a clinician in planning treatment for individuals with aphasia *Aphasia* David Frank Benson, Alfredo Ardila, 1996 An up to date integrated analysis of the language disturbances associated with brain pathology this book examines the different types of aphasia combining two clinical approaches the neurological and the neuropsychological Although they stress the clinical aspects of aphasia syndromes they also review assessment techniques linguistic analyses problems of aphasia classification and frequently occurring related disorders such as alexia agraphia acalculia and anomia In addition they examine commonly encountered speech disorders neurobehavioral and psychiatric problems commonly associated with aphasia and the language characteristics of aging and dementia Rehabilitation and recovery are discussed and a neural basis for aphasia and related problems is proposed Neuropsychologists neurologists speech therapists psychiatrists and occupational therapists will find this book invaluable when dealing with language disorders resulting from brain disease or injury **The Family Guide to Surviving Stroke and Communication Disorders** Dennis C. Tanner, 2008 A comprehensive guide for families of stroke survivors speech pathologists and rehabilitation specialists and counselors who respond to the needs of stroke survivors and their families this edition engages all readers on a journey toward understanding healing and persevering after a stroke and uses non technical terms case studies questions and answers and examples *The Journal of Speech and Hearing Disorders*, 1987 Annual issue 1956 is the Directory of the American Speech and Hearing Association *Coping with Concussion and Mild Traumatic Brain Injury* Diane Roberts Stoler Ed.D., Barbara Albers Hill, 2013-11-05 A comprehensive guide for improving memory focus and quality of life in the aftermath of a concussion Often presenting itself after a head trauma concussion or mild traumatic brain injury mTBI can cause chronic migraines depression memory and sleep problems that can last for years referred to as post concussion syndrome PCS Neuropsychologist and concussion survivor Dr Diane Roberts Stoler is the authority on all aspects of the recovery process Coping with Concussion and Mild Traumatic Brain Injury is a lifeline for patients parents and other caregivers Studies of the Reliability of the Problem Box and the Maze with Human and Animal Subjects William Thomas Heron, Walter Samuel Hunter, 1923 The Principles and Practice of Medicine Sir William Osler, 1898 The Invisible Stroke Veronica Woods, 2020-04-22 She takes you through her journey as a patient and doctor Get to know your illness what makes it worse and what makes it better Read about recent research in your illness Be master

of your sickness **Journal of Russian and East European Psychology** ,1998 Contains unabridged translations of articles from Russian and Eastern European sources primarily from scholarly journals and collections of articles published in book form **Archiv für systematische Philosophie und Soziologie** ,1898 The SAGE Encyclopedia of Human Communication Sciences and Disorders Jack S. Damico,Martin J. Ball,2019-03-01 The SAGE Encyclopedia of Human Communication Sciences and Disorders is an in depth encyclopedia aimed at students interested in interdisciplinary perspectives on human communication both normal and disordered across the lifespan This timely and unique set will look at the spectrum of communication disorders from causation and prevention to testing and assessment through rehabilitation intervention and education Examples of the interdisciplinary reach of this encyclopedia A strong focus on health issues with topics such as Asperger s syndrome fetal alcohol syndrome anatomy of the human larynx dementia etc Including core psychology and cognitive sciences topics such as social development stigma language acquisition self help groups memory depression memory Behaviorism and cognitive development Education is covered in topics such as cooperative learning special education classroom based service delivery The editors have recruited top researchers and clinicians across multiple fields to contribute to approximately 640 signed entries across four volumes The Problems of Psychical Research Hereward Carrington,1914 *Problems in Movement Skill Development* David A. Sugden,Jack Keogh,1990 Selected problems in movement skill development are highlighted in this book Some of the topics discussed are cerebral palsy blindness mental retardation apraxia and general movement skill problems Each review of a topic is divided roughly into a description of the nature of the problem and an analysis of suggested determinants and influences **Archiv für systematische Philosophie** ,1898 **Understanding Abnormal Behavior** David Sue,Derald Wing Sue,Stanley Sue,2003 Jahresbericht über die Leistungen und Fortschritte in der gesamten Medizin ,1898 *A Survey of Speech Therapy Techniques with Aphasic Adults* Ruth Rapoport Stotter,1959 **Jahresbericht über die Leistungen und Fortschritte in der gesamten Medizin** ,1898 **Journal of Nervous and Mental Disease** ,1894 July 1918 1943 include reports of various neurological and psychiatric societies
