Problems Of Cartesianism:

Problems of Cartesianism Thomas M. Lennon, John M. Nicholas, John Whitney Davis, 1982 The typical Cartesian collection contains papers which treat the problems arising out of Descartes's philosophy as though they and it appeared for the first time in a recent journal The approach of this collection is quite different The eight contributors concentrate on problems faced by Cartesianism which are of historical significance Without denigrating the importance of the technique of exploiting the texts in a manner that appeals to contemporary philosophical interests the contributors show how Cartesianism was shaped over time by the criticism it received This criticism took place in many areas politics theology natural science and metaphysics and its scope is reflected in this collection of papers The efforts of advocates of Cartesianism to produce a biography of Descartes and the political difficulties they faced are no less a part of the problems of Cartesianism than are the difficulties alleged against the Cartesian ontology of thought and extension in accounting for transubstantiation Seventeenth and eighteenth century theories of the formation of the earth for example were historically part of the same set of problems as the difficulties in Bible criticism These significant issues and many others are discussed in this volume

The Downfall of Cartesianism 1673-1712 R. A. Watson, 2012-12-06 Phenomenalism idealism spiritualism and other contemporary philosophical movements originating in the reflective experience of the cogito witness to the immense influence of Descartes However Cartesianism as a complete metaphysical system in the image of that of the master collapsed early in the 18th century A small school of brilliant Cartesians almost all expert in the new mechanistic science flashed like meteors upon the intellectual world of late 17th century France to win well deserved recognition for Cartesianism They were accompanied by a scintillating comet Malebranche the deviant Cartesian now remembered as the orthodox Cartesians are not However all these bright lights faded upon the philosophical horizon almost as soon as they appeared The metaphysical dualism of Descartes was as such neither to be preserved nor reconstructed

There are many reasons why the Cartesian system did not survive the victory over Scholasticism which Descartes Malebranche and the others had won Newtonian physics very soon replaced Cartesian physics The practical interest and success of the new science which the Cartesians themselves had nurtured drew men down from the lofty realms of metaphysics On the popular front Cartesianism was attacked and ridiculed for the view that animals are unthinking machines In the schools of Paris and elsewhere there was the general but severe opposition of pedants which is perhaps of more historical than philosophical interest
