Problems Of The Philosophy Of Religion:

How Philosophy Shapes Theology Frederick Sontag, 1971 **Issues in the Philosophy of Religion** Nicholas Rescher, 2013-05-02 Over the years Nicholas Rescher has published various essays on religious issues from a philosophical point of view The chapters of the present volume collect these together joining to them four further pieces which appear here for the first time Chapters 3 7 and 8 While these studies certainly do not constitute a system of religious philosophy they do combine to give a vivid picture of a well defined point of view on the subject the viewpoint of a Roman Catholic philosopher who in the longstanding manner of this tradition seeks to harmonize the commitments of faith with the fruits of inquiry proceeding under the auspices of reason **Religious Perspectives and Problems** Allen V. Eikner, 1980-01-01 This book of readings is arranged and edited with the beginning student in the philosophy of religion in mind It does not deal with certain technical and highly specialized problems which are of interest to the advanced student The articles have been chosen because of their deep insight into some of the more basic and general problems in the philosophy of religion and because of their clarity of explanation **Problems of the Philosophy of Religion** John K. Roth, 1971 The Problem of God in Philosophy of Religion Henry Duméry, 1964 **The problem of God in philosophy of religion** Henry Duméry, 1964

45 Great Philosophers and What They Mean for Judaism Shmuly Yanklowitz, 2024-06-18 In this new forty five chapter series Rabbi Shmuly explores forty five of the most influential philosophers throughout history and how Jewish ideas might engage with each of the philosophers and their philosophical projects At times Judaism may need to reject harmful foreign ideas Other times Judaism may need to adapt integrate and expand There are many other approaches we ll see of how Jewish thought can engage with other philosophies as well In this exciting new exploration we learn about Jewish intellectual history and what it means for us today *Perspectives on a Troubled Decade: Science, Philosophy, and Religion, 1939-1949* Lyman Bryson, Louis Finkelstein, Robert Morrison MacIver, 1950 Issues in Contemporary Philosophy of Religion Eugene Thomas Long, 2001-11-30 This collection of original articles written by leading contemporary European and American philosophers of religion is presented in celebration of the publication of the fiftieth volume of the International Journal for Philosophy of Religion Following the Editor s Introduction John Macquarrie Adriaan Peperzak and Hent de Vries take up central themes in continental philosophy of religion Macquarrie analyzes postmodernism and its influence in philosophy and theology Peperzak argues for a form of universality different from that of modern philosophy and de Vries analyzes an intrinsic and structural relationship between religion and the media The next three essays discuss issues in analytic philosophy of religion Philip Quinn argues that religious diversity reduces the epistemic status of exclusivism and makes it possible for a religious person to be justified while living within a pluralistic environment William Wainwright plumbs the work of Jonathan Edwards in order to better understand debates concerning freedom determinism and the problem of evil and William Hasker asks whether theological incompatibilism is less inimical to traditional theism than some have supposed Representing the Thomist

tradition Fergus Kerr challenges standard readings of Aquinas on the arguments for the existence of God David Griffin analyzes the contributions of process philosophy to the problem of evil and the relation between science and religion Illustrating comparative approaches Keith Ward argues that the Semitic and Indian traditions have developed a similar concept of God that should be revised in view of post Enlightenment theories of the individual and the historical Keith Yandell explores themes in the Indian metaphysical tradition and considers what account of persons is most in accord with reincarnation and karma doctrines Feminist philosophy of religion is represented in Pamela Anderson s article in which she argues for a gender sensitive and more inclusive approach to the craving for infinitude *The Problem of God in Philosophy of Religion* Henry Duméry,1969 **The Theories of Darwin and Their Relation to Philosophy, Religion, and Morality** Rudolf Schmid,1883 *Philosophies of Christianity* Balázs M. Mezei,Matthew Z. Vale,2020-01-09 This book examines key issues in Christianity from various philosophical points of view It brings together European authors with American theologians and philosophers on an interconfessional basis Coverage combines analytical and continental approaches in a unique way This comprehensive innovative analysis will help readers gain a deep understanding into a wide range of philosophical approaches to basic Christian problems The novelty of this volume is the unique combination of philosophical and theological approaches It merges these points of view in a rational manner which characterizes segments of Anglo American and Continental thought The scope of the work covers historical issues contemporary problems of atheism and also novel approaches to fundamental notions Readers will learn about questions surrounding the French New Theology Zizek s philosophical sources the notion of revelation and much more As a work produced by European and United States scholars this volume is an important contribution not only to the dialogue between various academic cultures but also to the expression of their fruitful cooperation which grounds and inspires serious academic research The readership of this work begins at an undergraduate level and reaches up to academic researchers and professors interested in borderline problems between philosophy and theology history and contemporary issues Philosophy of Religion Paul Copan,Chad Meister,2008 Offers a comprehensive and authoritative overview of the most important ideas and arguments in this resurgent field The text moves beyond the borders of Western theism to more accurately reflect the nature of the twenty first century world Jacket **The Problem of Religious Knowledge** William T. Blackstone,1963 This book is designed for those who have this concern and puzzlement though of course it offers no guarantee of resolving such puzzlement It is not designed to be a highly specialized and technical treatise in philosophy of religion but one which can be read and appreciated by students and educated laymen It has two specific purposes that of providing a clear picture of development in contemporary philosophy and the impact of these developments in philosophy of religion and that of systematically exploring the question Is there religious knowledge Contemporary philosophy is used as a point of reference for devising a framework within which this question can be answered Space limitations have forced an all too brief treatment of some positions Such brevity tends to

distort but I have made efforts to avoid such distortion Author s Preface **Problems of Religious Diversity** Paul J. Griffiths,2001-06-29 Exploring Religious Diversity analyzes the philosophical questions raised by the fact that many religions in the world often appear to contradict each other in doctrine and practice Analyzes the philosophical questions raised by the fact that many religions in the world often appear to contradict each other in doctrine and practice Evaluates the fundamental philosophical underpinnings of the debates between religious and non religious approaches to religious diversity Contains a glossary that defines the book s key technical terms and how they are related to one another **The Political Problem of Religious Pluralism** Thaddeus J. Kozinski,2012-07-10 In contemporary political philosophy there is much debate over how to maintain a public order in pluralistic democracies in which citizens hold radically different religious views The Political Problem of Religious Pluralism deals with this theoretically and practically difficult issue by examining three of the most influential figures of religious pluralism theory John Rawls Jacques Maritain and Alasdair MacIntyre Drawing on a diverse number of sources Kozinski addresses the flaws in each philosopher s views and shows that the only philosophically defensible end of any overlapping consensus political order must be the eradication of the ideological pluralism that makes it necessary In other words a pluralistic society should have as its primary political aim to create the political conditions for the communal discovery and political establishment of that unifying tradition within which political justice can most effectively be obtained Kozinski s analysis though exhaustive and rigorous still remains accessible and engaging even for a reader unversed in the works of Rawls Maritain and MacIntyre Interdisciplinary and multi thematic in nature it will appeal to anyone interested in the intersection of religion politics and culture Problems in the Philosophy of Religion ,1990

Knowledge, Belief, and Transcendence James Hall,1982-12 The Problem of Evil Michael L. Peterson,2016-11-15 Of all the issues in the philosophy of religion the problem of reconciling belief in God with evil in the world arguably commands more attention than any other For over two decades Michael L Peterson s The Problem of Evil Selected Readings has been the most widely recognized and used anthology on the subject Peterson s expanded and updated second edition retains the key features of the original and presents the main positions and strategies in the latest philosophical literature on the subject It will remain the most complete introduction to the subject as well as a resource for advanced study Peterson organizes his selection of classical and contemporary sources into four parts important statements addressing the problem of evil from great literature and classical philosophy debates based on the logical evidential and existential versions of the problem major attempts to square God s justice with the presence of evil such as Augustinian Irenaean process openness and felix culpa theodicies and debates on the problem of evil covering such concepts as a best possible world natural evil and natural laws gratuitous evil the skeptical theist defense and the bearing of biological evolution on the problem The second edition includes classical excerpts from the book of Job Voltaire Dostoevsky Augustine Aquinas Leibniz and Hume and twenty five essays that have shaped the contemporary discussion by J L Mackie Alvin Plantinga William Rowe Marilyn Adams John Hick William

Hasker Paul Draper Michael Bergmann Eleonore Stump Peter van Inwagen and numerous others Whether a professional philosopher student or interested layperson the reader will be able to work through a number of issues related to how evil in the world affects belief in God *Philosophy, Religion, and the Question of Intolerance* Mehdi Amin Razavi, David Ambuel, 1997-07-31
