A Fallibilist Social Methodology for Today's Institutional Problems John Wettersten, 2021-12-13 This book identifies and explains far ranging consequences for methodology as a consequence of the observation that all rationality is social and highlights the need for methodological reforms in publications and interactions among colleagues and research programs The idea that all rationality is social needs to be part and parcel of all social scientific theories which means that their content must be changed Sociology needs to study the impact of social rules economics must revise assumptions about how individual rationality impacts financial developments and cognitive psychology must include social dimensions In addition there is also a need for moral theories that explain how social standards of behavior can be improved in specific institutional contexts

Flag Burning and Free Speech Robert Justin Goldstein, 2000 When Gregory Lee Johnson burned an American flag as part of a political protest he was convicted for flag desecration under Texas law But the Supreme Court by a

contentious 5 to margin overturned that conviction claiming that Johnson's action constituted symbolic and thus protected speech. Heated debate continues to swirl around that controversial decision both hailed as a victory for free speech advocates and reviled as an abomination that erodes the patriotic foundations of American democracy. Such passionate yet contradictory views are at the heart of this landmark case. Book jacket *Personnel and Employment Problems in Industrial Management* ...
