Problems Unique To The Holocaust:

Problems Unique to the Holocaust Harry James Cargas, 2013-07-24 Victims of the Holocaust were faced with moral dilemmas for which no one could prepare Yet many of the life and death situations forced upon them required immediate actions and nearly impossible choices In Problems Unique to the Holocaust today's leading Holocaust scholars examine the difficult questions surrounding this terrible chapter in world history Is it ever legitimate to betray others to save yourself If a group of Jews is hiding behind a wall and a baby begins to cry should an adult smother the child to protect the safety of the others How guilty are the bystanders who saw what was happening but did nothing to aid the victims of persecution In addition to these questions one contributor considers whether commentators can be objective in analyzing the Holocaust or if this is a topic to be left only to Jews In the final essay another scholar assesses the challenge of ethics in a post Holocaust world This singular collection of essays which closes with a meditation on Daniel Goldhagen's controversial book Hitler's Willing Executioners asks bold questions and encourages readers to look at the tragedy of the Holocaust in a new light

The Final Solution Donald Bloxham, 2009-09-10 The first ever study to combine a detailed re appraisal of the development of the genocide of Europe's Jews with full consideration of Nazi policies against other population groups and a comparative analysis of other genocides from the twentieth century **The Left's Jewish Problem** Dave Rich, 2018-09-20 New updated edition of an important and timely critique of Anti Jewish sentiment on the left There is a sickness at the heart of left wing British politics and in recent years it has silently spread becoming ever more malignant Today it seems hard to believe that until the 1980s the British left was broadly pro Israel And while Jeremy Corbyn's leadership may have thrown a harsher spotlight on the crisis it is by no means a recent phenomenon The widening gulf between British Jews and the anti Israel left now allying itself with Islamist extremists who demand Israel's destruction did not happen overnight or by chance political activists made it happen This book reveals who they were why they chose Palestine and how they sold their cause to the left Based on new academic research Dave Rich's nuanced and thoughtful guide brings fresh insight to an increasingly fraught debate As the question becomes more urgent than ever this new fully updated edition taking in events since 2016 provides an essential guide to the left's increasingly controversial Jewish problem Major Problems in the History of World War II Mark A.
