The Synthesis Novel in Latin America Eduardo de Faria Coutinho,1991 Eduardo de Faria Coutinho s analysis of Grande Sertao Veredas places the novel at the intersection of experience literary history and artistry Walking the text s balance between the real and the imaginary and focusing his reading on the thread of ambivalence that snakes its way throughout Coutinho weaves together the text s dichotomies between ethics and aesthetics rural regionalism and urban universalization and socioeconomic and psychological epistemologies This book also serves to place Grande Sertao Veredas in the trajectory of the history of the Latin American novel creating an accessible point of entry to the genre and grounding the text firmly within the literary tradition Hispanófila ,1985 Time, Space, Matter in Translation Pamela Beattie,Simona Bertacco,Tatjana Soldat-Jaffe,2022-09-28 Time Space Matter in Translation considers time space and materiality as legitimate habitats of translation By offering a linked series of interdisciplinary case studies that show translation in action beyond languages and texts this book provides a capacious and innovative understanding of what translation is what it does how and where The volume uses translation as a means through which to interrogate processes of knowledge transfer and creation interpretation and reading communication and relationship building but it does so in ways that refuse to privilege one discipline over another denying any one of them an entitled perspective The result is a book that is grounded in the disciplines of the authors and simultaneously groundbreaking in how its contributors incorporate translation studies into their work This is key reading for students in comparative literature and in the humanities at large and for scholars interested in seeing how expanding intellectual conversations can develop beyond traditional questions and methods *The Poetry of Machado de Assis* Lorie Chieko Ishimatsu,1984 **Questions of the Liminal in the Fiction of Julio Cortázar**

Moran,2000 The Argentinian writer Julio Cortazar was immersed in one of the most vibrant and revolutionary intellectual scenes of the last century the Paris of the 1950s and 60s This book shows that his work engages with and often foreshadows many of the problems which were to become central to so called poststructuralist philosophy and poetics

Julio Cortázar ,1985 *Business Ethics and Strategy, Volumes I and II* Alan E. Singer,2018-10-26 This volume is intended as a reference for those interested in the relationship between business strategy and business ethics broadly conceived Several articles have been selected from various leading journals in management strategy and ethics An introductory chapter provides an overview of the articles but it also relates them systematically to a fundamental dualism involving values ethics and politics all viewed from the perspective of business and business studies *Reference Guide to*
