## **Proceedings First International Symposium On The Artificial Insemination Of Poultry:**

**Proceedings, First International Symposium on the Artificial Insemination of Poultry** Murray R. Bakst, Graham J. Wishart, 1995 **Poultry Genetics, Breeding, and Biotechnology** W. M. Muir, S. E. Aggrey, 2003-06-18 This comprehensive research book represents the first complete integration of current knowledge in this area. It addresses issues associated with poultry breeding particularly by examining quantitative and molecular genetics and the uses of transgenic technology. A special section covers the important area of disease resistance and transmission. **Biology of Breeding Poultry** Paul M. Hocking, 2009 This book reviews the biological science and background to breeding meat poultry specifically broiler turkey and duck. These commercial birds have been changed by genetic selection to such an extent that they are substantially different from traditional breeds and laying hens. Covering science management and husbandry systems, this book is an essential reference for researchers and students in animal science as well as technical staff of breeding companies and poultry meat producers. Part of the Poultry Science Symposium Series. *Reproductive Biology and Phylogeny of Birds, Part A* Barrie G M Jamieson, 2011-10-14 Aspects of reproduction covered in this volume include classification and phylogeny as revealed by molecular biology, anatomy of the male reproductive tract and organs, anatomy and evolution of copulatory structures, development and anatomy of the female reproductive tract, endocrinology of reproduction, ovarian dynamics and follicle development. **Reproduction in Farm Animals** E. S. E. Hafez, B. Hafez, 2013-07-03 When you're looking for a comprehensive and reliable text on large animal reproduction, look no further. The seventh edition of this classic text is geared for the undergraduate student in Agricultural Sciences and Veterinary Medicine. In response to reader feedback, Dr Hafez has streamlined and edited the entire text to remove all repetitious and nonessential material. That means you'll learn more in fewer pages. Plus, the seventh edition is filled with features that help you grasp the concepts of reproduction in farm animals so you'll perform better on exams and in practice: condensed and simplified tables so they're easier to consult, an easy-to-scan glossary at the end of the book, an expanded appendix which includes graphic illustrations of assisted reproduction technology. Plus, you'll find valuable NEW COVERAGE on all these topics: Equine Reproduction, expanded information reflecting today's knowledge, Llamas, NEW CHAPTER: Micromanipulation of Gametes and In Vitro Fertilization, NEW CHAPTER: Reach for the text that's revised with the undergraduate in mind. The seventh edition of Hafez's *Reproduction in Farm Animals*. Prisoned Chickens, Poisoned Eggs Karen Davis, 2014-01-21 Karen Davis wrote *Prisoned Chickens, Poisoned Eggs* in the mid 1990s to focus attention on the billions of chickens buried alive on factory farms. The book was a catalyst for animal rights activists seeking to develop effective strategies to expose and relieve the plight of chickens. United Poultry Concerns campaign in the 1990s to reveal the U.S. egg industry's cruel practice of starving hens to force them to molt their feathers and cut the cost of egg production was decisive in shifting advocacy attention to chickens and the hidden causes of Salmonella and Campylobacter food poisoning. This new edition documents what has happened since the book first appeared.

the waging of high profile campaigns to get rid of battery cages for laying hens undercover investigations exposing the appalling cruelty to chickens and turkeys by poultry industry workers globalization of chicken production and its effect on the environment and spread of avian influenza and how farm animal sanctuaries have become key players in debunking industry myths with truthful accounts of the sensitive and intelligent birds being brutalized in the name of food It also effectively explains why these birds are so ill why eating them makes people sick and what can be done to cure the pathology of the modern poultry industry     **Poultry Science** ,1996 Vol 5 includes a separately paged special issue dated June 1926
