explores some of the many ways in which sanctity was closely intertwined with the development of literary strategies across a range of writings in late medieval Britain Rather than looking for clues in religious practices in order to explain such changes or reading literature for information about sanctity these essays consider the ways in which sanctity as concept and as theme allowed writers to articulate and to develop further their craft in specific ways While scholars in recent years have turned once more to questions of literary form and technique the kinds of writings considered in this collection writings that were immensely popular in their own time have not attracted the same amount of attention as more secular forms The collection as a whole offers new insights for scholars interested in form style poetics literary history and aesthetics by considering sanctity first and foremost as literature      Proceedings of the Harvard Celtic Colloquium, 13: 1993 Barbara

century The readings presented here reveal the world of Irish bardic poetry as a fully chromatic vibrant humorous scholarly and literary enterprise Poets participated creatively and consciously in contemporary literary movements filtering and selecting to suit the sensibilities of the vital indigenous literary culture The readings offered in this study re establish the international flavor of Irish bardic profane poetry and in doing so return the poet and the poetry to a world in which the literary works have merit in their own right In this study bardic poetry is not explored for its immediate historical references to events or to people The result of this is to cast a bright light both on the literary nature of the poetry and on the vigorous and engaged literary culture in Ireland abandoning for once the necessity to refer everything to the duality of conquered and conqueror
