Matas, Dr. Lutz D. Schmadel, G. Zech, 2013-04-17 *Proceedings of the Workshop on Star Formation Held in Edinburgh, 4-6 October 1983* Workshop on Star Formation, 1984 *Die Sterne*, 1985 **Light on Dark Matter** F.P. Israël, 2012-12-06

Light on Dark Matter held from 10-14 June 1985 in the Dutch seaside resort of Noordwijk was the first international conference devoted to the results of the all sky survey by the US Dutch UK Infra Red Astronomical Satellite IRAS. As such it was a homage to the scientists, engineers and technicians who conceived, built and operated this extremely successful satellite. That this was generally felt to be the case was proven by the large number of participants over 200 from seventeen different nations, the lively discussions and the great variety of topics presented during the meeting. All this notwithstanding a typical Dutch summer gale force winds, heavy cloud cover and meter high surf crashing onto a beach on which only the hardy ventured. Most participants contented themselves by watching the lonely seagulls patrolling the North Sea coastline through the panoramic windows of the conference center. Parallel to the IRAS Conference a Workshop on Infrared Properties of Interstellar Grains was organized by J. M. Greenberg of the Leiden Laboratory Astrophysics Group. A busy shuttling of participants between the Workshop room and the Main Conference Hall showed that many found it hard to choose. A large number of people were involved in making the Conference a success in the first place: the scientific organizers with their valuable advice and the conference speakers among which I would like to mention Dr. J. H. **Astronomy and Astrophysics Monthly Index**, 1989 **Bibliographic Guide to Conference Publications** New York Public Library. Research Libraries, 1986. British Reports, Translations and Theses British Library. Lending Division, 1985 British Reports, Translations and Theses British Library. Document Supply Centre, British Library. Lending Division, 1985. Issue for Mar 1981 contains index for Jan-Mar 1981 in microfiche form *Reports on Astronomy* Richard M. West, 2012-12-06. Volume XIX A of IAU Transactions contains the reports by Presidents of Commissions covering the period July 1981-June 1984. The topics of IAU Commissions deal with all of contemporary astronomy and the present volume therefore constitutes an exhaustive and unique record of astronomical research during this interval. It is particularly useful for astronomers and other scientists who want to gain an overview of a certain field not necessarily near their own research area. Each Commission President was requested by early 1984 to begin preparations for the compilation of his/her Commission report. All members of Commissions were asked to supply details about their individual research programmes. The ensuing very substantial task of concatenating was undertaken in late 1984 by the Presidents, often supported by a team of authors, all recognized authorities in their fields. In

order to preserve some measure of uniformity which is in any case very difficult with so many authors editorial guidelines were sent to Presidents including the number of pages allotted to each Commission **Bibliographic Guide to Government Publications** New York Public Library.
