Standards in Rechnernetzen Alexander Prosser, 2013-03-13 In einer Zeit der unterschiedlichsten Netzwerktypen und ihrer herstellereinspezifischen Ausprägungen ist die Schaffung von Standards notwendiger denn je. Diese Standards sollen einen gemeinsamen Nenner darstellen, auf den sich die einzelnen Hersteller von Netzwerkhardware und software beziehen können. Dieses Buch stellt die wichtigsten Standards für Rechnernetze vor. Nach einer Einleitung für Einsteiger in der die allgemeinen Grundbegriffe erklärt werden, werden im zweiten Teil die gebräuchlichsten Standards des Transportsystems vorgestellt. Stärken und Grenzen dieser Standards aufgezeigt und die verschiedenen Standards miteinander in Beziehung gebracht. Im dritten Teil werden für die gebräuchlichsten Anwendungen elektronische Post, Dateitransfer, Terminalemulation und verteilte Anwendungsprogramme, die TCP/IP und OSI basierten Alternativen einander gegenübergestellt und miteinander verglichen. Ausblicke auf mögliche zukünftige Entwicklungen und weiterführende Literaturhinweise runden das Werk ab und machen es zu einem unentbehrlichen Nachschlagewerk.

Readings in Object-Oriented Database Systems Stanley B. Zdonik, David Maier, 1990 This comprehensive collection is a survey of research in object oriented databases offering a substantive overview of the field. Section introductions and over 40 research papers presented in their original scope and detail. The balanced selection of articles presents a confluence of ideas from both the language and database research communities that have contributed to the object oriented paradigm. The editors develop a general definition and model for object oriented databases and relate significant research efforts to this framework. Further, the collection explores the fundamental notions behind object oriented databases, semantic data models, implementation of object oriented systems, transaction processing interfaces and related approaches. Research and theory are balanced by applications to CAD systems programming environments and office information systems.
