Index of Conference Proceedings British Library. Document Supply Centre, 1995 **Steps to Compliance with International Labour Standards** Lars Thomann, 2011-09-26 For more than nine decades the International Labour Organization ILO has been responsible for setting up monitoring and implementing international labour standards in order to ensure that workers around the globe enjoy minimum social protection and workers rights Lars Thomann examines the ILO's wide ranging efforts to achieve compliance with international labour standards adopted by the organization and ratified by its member states The author draws on different compliance schools of various strands of international relations theory and discusses them against the background of the ILO's compliance efforts in general and regarding the abolition of forced labour in particular He shows that even though the ILO has experience in bringing about compliance given its seniority and is in many cases successful in doing so it is not well equipped to deal with persistent cases of non compliance The book is valuable reading for researchers and students in the field of social sciences as well as for practitioners working on international labour standards Current Research in Britain ,1990 **Monthly Catalog of United States Government Publications** ,1994 **Record of Proceedings** ,1991 **The ILO Principle of Equal Pay and Its Implementation** Paula Määttä, 2008 *Monthly Catalogue, United States Public Documents* ,1994 *Peoples and Minorities in International Law* Catherine Brölmann, René Lefebvre, Marjoleine Zieck, 2023-12-11 The revival of group consciousness in Eastern European countries in the wake of the Cold War has put the protection of subnational groups high on the political agenda The present book bears witness to the renewed interest in the legal position of subnational groups in international law This book and the Conference at which provisional versions of most of the contributions were presented originate in perceived deficiencies of contemporary international law to protect subnational groups within a legal framework of which the principal subjects are states Divided into three parts the book commences with an analysis of the antagonistic relation between the right of peoples to self determination and the right of states to territorial integrity and the need to redefine these concepts in the post Cold War era The book continues with the highly controversial issue of the attribution of rights to subnational groups and the identification of subnational groups which would be entitled to such rights The second part deals with the identification and protection of peoples and minorities at different levels of organization viz subnational national and supranational This part is followed by an analysis of the modes and means by which international obligations vis vis subnational groups can be enforced Not only the judicial means are considered but also the justifiability of recourse to military means to the cause of subnational groups This book not only provides an in depth analysis of contemporary international law with respect to the protection of peoples and minorities but also of the law as it is developing in the post Cold War era **Record of Proceedings -International Labour Conference** ,2003 **Report of the United States Delegation to the ...
