NOTES ON A HERPETOLOGICAL COLLECTION FROM  
OAXACA AND OTHER LOCALITIES IN MEXICO

---

By FREDERICK A. SHANNON

---

DURING the summer of 1946, Walter S. Miller, of the Summer Institute of Linguistics, Mexico City, made a herpetological collection in the vicinity of San Lucas Camotlán, Oaxaca, where he was engaged in making a philological study of the Mixes Indians. The collection would be to the credit of a professional herpetologist, for not only is it well labeled as to time, date, and place, but it contains careful notes on habits, color in life, habitat, and other pertinent data. Notes on this material constitute the bulk of this paper, which is a Contribution from the University of Illinois Museum of Natural History. In addition, other miscellaneous specimens that have come to my attention during this study and material that represents helpful contributions to the study of Mexican herpetology have been included. Most of the specimens are in the collection of the United States National Museum.

Quotations without label are Mr. Miller's. In the main they are unaltered, but I have made occasional slight changes that better express the meaning of Mr. Miller's original field notes.

My sincere thanks are due Dr. Hobart M. Smith and W. Leslie
