Myanmar Media in Transition Lisa Brooten, Jane Madlyn McElhone, Gayathry Venkiteswaran, 2019-05-13 Myanmar Media in Transition Legacies Challenges and Change is the first volume to overview the country's contemporary media landscape providing a critical assessment of the sector during the complex and controversial political transition Moving beyond the focus on journalism and freedom of the press that characterizes many media focused volumes Myanmar Media in Transition also explores developments in fiction filmmaking social movement media and social media Documenting changes from both academic and practitioner perspectives the twenty one chapters reinforce the volume's theoretical arguments by providing on the ground factual and experiential data intended to open useful dialogue between key stakeholders in the media government and civil society sectors Providing an overview of media studies in the country Myanmar Media in Transition addresses current challenges such as the use of social media in spreading hate speech and the shifting boundaries of free expression by placing them within Myanmar's broader historic social political and economic context

The Public Sphere and Media Politics in Malaysia Mohd Azizuddin Mohd Sani, 2009-01-14 This book analyses Malaysian media from the Jurgen Habermas perspectives of the public sphere especially from the aspects of bourgeois public sphere mass press the commercialisation of the press and refeudalisation Malaysia has also faced all of those aspects However the highlight of this book is the process called defeudalisation The 2008 General Election has shown that a new public sphere of cyberspace or the Internet and the mobile phone was accessed and utilised significantly and was enough to be used by the opposition in influencing the public to vote them It became one of the major factors in determining the result of the election which is for the first time the opposition denying the ruling government a two third majority in the parliament and taking control or governing of five states This new and influential public sphere in Malaysia has reversed the Habermas argument of refeudalisation to a process called Defeudalisation However in creating a civil public sphere for the people to deliberate views this book also argues that Malaysia needs a responsible media or freedom of the press with social responsibility This book urges Malaysia to accept the idea or theory of social responsibility and the concept of public journalism in the public sphere This book is suitable for all interested politicians journalists academia and students of politics media studies laws and Malaysian studies in the issues of media politics free press and the role of media in Malaysian society as well as those interested in civil liberties democratisation political theory media theory law and Malaysian studies

The Quest for Press Freedom Meseret Chekol Reta, 2013-05-16 The Quest for Press Freedom is a book about press development and freedom in Ethiopia with a focus on the state media It examines the building of a modern media institution over the last one hundred years of its existence and the restrictions against its freedoms The significance of this work lies in its originality and that it addresses these two issues across three distinct epochs the monarchy era the Marxist military regime and the

current ethnic federalist regime The book examines the political and social situations in each of these periods and analyzes the effects they had on the media The book also provides examples of how journalists working for the government run media have a strong desire to exercise their constitutional right to press freedom In the final chapter Reta offers recommendations for a more viable media system in Ethiopia

Seeing Nature Through Gender Virginia Scharff, 2003 Environmental history has traditionally told the story

of Man and Nature Scholars have too frequently overlooked the ways in which their predominantly male subjects have themselves been shaped by gender Seeing Nature through Gender here reintroduces gender as a meaningful category of analysis for environmental history showing how women's actions desires and choices have shaped the world and seeing men as gendered actors as well In thirteen essays that show how gendered ideas have shaped the ways in which people have represented experienced and consumed their world Virginia Scharff and her coauthors explore interactions between gender and environment in history Ranging from colonial borderlands to transnational boundaries from mountaintop to marketplace they focus on historical representations of humans and nature on questions about consumption on environmental politics and on the complex reciprocal relations among human bodies and changing landscapes They also challenge the ecofeminist position by challenging the notion that men and women are essentially different creatures with biologically different destinies Each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly often with dire consequences for other people and organisms Here are considerations of the ways we study sexuality among birds of William Byrd's masking sexual encounters in his account of an eighteenth century expedition of how the ecology of fire in a changing built environment has reshaped firefighters own gendered identities Some are playful as in a piece on the evolution of snow bunnies to shred bunnies Others are dead serious as in a chilling portrait of how endocrine disrupters are reinventing humans animals and water systems from the cellular level out Aiding and adding significantly to the enterprise of environmental history Seeing Nature through Gender bridges gender history and environmental history in unexpected ways to show us how the natural world can remake the gendered patterns we've engraved on ourselves and on the planet
