Private Schooling Of Girls Past And Present:

Chemistry Was Their Life Marelene F. Rayner-Canham, Geoffrey Rayner-Canham, 2008 British chemistry has traditionally been depicted as a solely male endeavour However this perspective is untrue the allure of chemistry has attracted women since the earliest times Despite the barriers placed in their path women studied academic chemistry from the 1880s onwards and made interesting or significant contributions to their fields yet they are virtually absent from historical records Comprising a unique set of biographies of 141 of the 896 known women chemists from 1880 to 1949 this work attempts to address the imbalance by showcasing the determination of these women to survive and flourish in an environment dominated by men Individual biographical accounts interspersed with contemporary quotes describe how women overcame the barriers of secondary and tertiary education and of admission to professional societies Although these women are lost to historical records they are brought together here for the first time to show that a vibrant culture of female chemists did indeed exist in Britain during the late 19th and early 20th centuries The Private Schooling of Girls Geoffrey Walford, 1993 First published in 1993 Routledge is an imprint of Taylor Francis an informa company **New Books on Women and Feminism**, 1991 The Jewish People, Past and Present, 1948 *Handbook of Higher Education in Japan* Paul Snowden, 2025-10-01 Just as higher education HE in Europe had its beginnings in religious training for the priesthood HE in feudal Japan too provided instruction for a religious life But while the evolution to secular instruction was gradual in Europe in Japan it came with a big bang the opening of the country and consequent Westernization and all that that involved in the mid 19th century This first volume in the new Japan Documents Handbook series tells the story in 25 chapters of how Japan's HE system has become what it is now ending with a very tentative glimpse into the rest of the 21st century A variety of themes are covered by scholars chapters that concentrate on governance look at the distinction between national public and private institutions others consider important topics such as internationalization student recruitment and faculty mobility More innovative topics include Women of Color Leading in Japanese Higher Education All provide copious references to other authorities but rather than just toe the conventional line they include opinions and proposals that may be contentious or even revolutionary The editor provides an overview of the subject and its treatment in an Introduction *Accounts and Papers* Great Britain.
