## **Privatization Economic Efficiency Comparative Analysis Of Dev D:**

*Business Periodicals Index*, 2006      *Neue Institutionenökonomik* Rudolf Richter, Eirik Grundtvig Furubotn, 2003 In dem vorliegenden Werk werden die Inhalte der NI von zwei ihrer herausragenden Vertreter in vorbildlicher Weise präsentiert. Dabei stellen die Verfasser nicht nur die theoretischen Grundlagen dar sondern zeigen auch die Möglichkeiten der Anwendung der NI auf Märkte Unternehmen und Staat auf. Darüber hinaus werden interessante Querverbindungen zwischen moderner Ökonomik und Rechtswissenschaft deutlich die in der reinen Wirtschaftswissenschaft meist vernachlässigt werden. In Ex Libris 78 SS 2000 S 25 bleibt festzuhalten da hier bei einem epochemachenden Werk zu berichten ist zuzuordnen ist es dem Transaktionskostenansatz der von den beiden Autoren in jeder Hinsicht brillant präsentiert wird. Weil durch die Institutionen Ökonomik und wieder engere Bindungen zwischen Betriebs und Volkswirtschaftslehre entstehen muß dieses Lehrbuch allen angehenden Wirtschaftswissenschaftlern nahegelegt werden. Zumal die Institutionen Ökonomik mittlerweile auf dem besten Wege ist zum Mainstream zu werden. In Studium 65 WS 1999/2000 S 26      Research on Characteristic Issues in Current Developing Economies Xiaochun Li, Yunyun Wu, 2024-12-24 This is the first book that uses the Harris-Todaro H-T model to study contemporary economic issues in developing countries with a particular focus on China. The zenith of research utilizing this model occurred in the 1990s primarily addressing the impact of economic policies during labor migration on wages and employment across various sectors international trade urban unemployment rates and social welfare. After nearly four decades research in this area gradually faded from the spotlight. Post 2010 however there has been a resurgence in H-T model studies. Scholars have begun using this model to explore contemporary issues revealing unprecedented insights and showcasing its robust applicability and vitality. The book features 13 papers authored by contributors since 2018 each utilizing the H-T model and published in various academic journals. It delves into pivotal issues of contemporary economic development in developing countries like China including dual agricultural economy producer services foreign direct investment agricultural pollution migrant workers remittances and agricultural human capital investment. The book constructs general equilibrium models by integrating these topics with the H-T model providing a framework to assess the impact of economic policies. Methodologically it goes beyond conventional approaches by introducing constant elasticity of substitution functions and other methods to precisely express contemporary economic problems. Numerical simulations to examine the impact of economic policies are also used. Beyond presenting solutions to the current economic problems in developing countries this book provides academic references for economic theory researchers.      *Public Sector Enterprises in India* P.K. Jain, Seema Gupta, Surendra S. Yadav, 2014-06-05 The book examines the various aspects of non-financial central public sector enterprises (PSEs) in India for a period from 1986-87 to 2010-11. The analysis is based on all the key financial ratios namely profitability efficiency liquidity leverage and productivity. Liberalization and globalization have caused competition in India and have lowered the profit margins. At the same time Indian government has reduced subsidies and

budgetary support for PSEs to curtail their own fiscal deficit Strategic and economic reforms were also introduced in PSEs to make their operations commercially profitable so that they are not dependent on the government to meet their financial requirements on the one hand and have their own earnings to finance their expansion modernization requirements as well as their social obligations on the other To what extent the PSEs have succeeded in this objective constitutes one major aspect of the present research work The other equally important aspect examined is financial performance of the PSEs which have opted for disinvestment and have signed memorandum of understanding MoU self obligations The Indian Government has desired the central PSEs to be profitable in their operations in post liberation era of 1990s For this purpose two major instruments namely disinvestment and MoUs were introduced This book examines in detail financial performance of PSEs which had opted for disinvestment and have signed MoU Based on analysis findings and literature on the subject the book contains some concrete suggestions that would prove extremely helpful to Indian Government to further improve their financial performance
