**Privatisierungspolitik in Ostdeutschland** Hans R. Lang, 2013-03-09 Reichlich zehn Jahre nach der Vereinigung hat Ostdeutschland wirtschaftlich bei weitem noch nicht zu Westdeutschland aufgeschlossen. Das war bei realistischer Wertung der Ausgangslage in so kurzer Zeit auch nicht zu erwarten. Aus ökonomischer Sicht sind im Zuge der Vereinigung jedoch auch gravierende Fehler begangen worden, sie belasten die Entwicklung der ostdeutschen Wirtschaft bis heute. Immer wieder wurde darauf verwiesen, dass die Zeit drängte und so seien manche Fehler unter dem Zwang zu raschem Handeln nicht zu vermeiden gewesen. So sei es unumgänglich gewesen, in Ostdeutschland rasch und zur Gänze das westdeutsche Regelwerk an Gesetzen und sonstigen Vorschriften sowie die dazugehörigen Institutionen zu übernehmen, um einen einheitlichen Wirtschaftsraum zu verwirklichen. Die Tatsache, dass damit die ostdeutsche Wirtschaft in das gleiche Korsett von Regulierungen gezwungen wurde, das bereits in Westdeutschland Marktteilnehmer gefesselt hatte, habe in Kauf genommen werden müssen. Manche der Fehler, zu denen es kam, können sich bei einem Abwägen auch aus ökonomischer Sicht rechtfertigen lassen, weil es realistische Handlungsalternativen für die Politik nicht gab. Aber in der Politik sind nicht allein oder sogar vornehmlich die gesamtwirtschaftlichen Nach- und Vorteile ausschlaggebend für Handeln. In der Politik geht es immer auch um spezifische Gruppeninteressen und um Machterhalt. So werden nicht selten Wege verworfen, weil andere Wege zwar geringere volkswirtschaftliche, aber größere politische Gewinne versprechen. Am Beginn der Vereinigung war eine Entscheidung darüber zu treffen, wie mit den staatseigenen Betrieben und sonstigem Vermögen der DDR umzugehen sei.

Privatizing Public Enterprises and Foreign Investment in Developing Countries, 1988-93 Frank Sader, 1995-01-01  
Analyzes impact of privatization programs on direct foreign investment (DFI). Uses econometric techniques to demonstrate that infrastructure privatization is highly correlated with higher levels of subsequent DFI capital inflows. *Handbook of Latin American Studies* v 57. **Privatizing Public Enterprises and Foreign Investment in Developing Countries, 1988-93** Frank Sader, Banco Mundial, 1995. *Lessons from Privatization* Rolf van der Hoeven, György Sziráczki, 1997. This book assesses the labor market consequences of privatization in developing countries: the Republic of Korea, India, and Mexico, and transition economies Bulgaria, the Czech Republic, Eastern Germany, and Hungary during the first half of the 1990s. Based on over 20 case studies in seven countries, it considers the effect of privatization on productivity and on the level and structure of employment. The evolving patterns of industrial relations in privatized firms and the subsequent changes in wages, remuneration systems, and non-wage benefits are also examined. **Trends in Private Investment in Developing Countries** Lawrence Bouton, Mariusz A. Sumlinski, 1996. This short paper, in its eighth edition, provides private and public investment data through 1995. Although the growing empirical literature on privatization has almost invariably found that the transfer of assets from public to private hands yields both efficiency and welfare gains, there has been a surprising lack of research on the macroeconomic consequences of privatization. This report addresses that issue briefly, exploring the impact of

privatization on private fixed investment As a starting point the dimensions of the privatization revolution are summarized with special emphasis on the contribution made by foreign investors Data on investment commitments stemming from privatization are also presented The final section offers some econometric insights into the importance of privatization as a determinant of private investment in developing countries The report concludes that privatization of state owned enterprises is likely to have a multiplier effect on private investment and is therefore an important ingredient of governments efforts to improve the business climate and to step up the pace of economic development Appendix 1 discusses the methods and sources used Appendix 2 presents tables with investment figures in terms of five ratios Appendix 3 graphs the data by region and Appendix 4 discusses the econometric results

**Privatization and Foreign Investments in Nigeria** Lawrence Okechukwu Azubuike, 2009 Nigeria's political economy has straddled the ideological divide between socialism and capitalism The country produces oil and at some point in its existence it embarked on robust state involvement in the economy This was marked by the acquisition or establishment of numerous state enterprises Over the years the performance of these enterprises was found to be dismal and as part of the overall reform of the economy Nigeria has joined the global trend toward reduction in direct state ownership of enterprises Indeed it has embarked on massive divestment of state interests in once publicly owned firms Besides the universal rationale of efficiency one of the objectives of the privatization exercise in Nigeria is the attraction and retention of foreign investments This work examines the direct and indirect linkage between the government's divestiture of its interests in firms on the one hand and foreign investments in the country on the other hand The book is divided into seven chapters Chapter 1 reviews the political and economic history of Nigeria to set the background and context that necessitated the introduction of the reform package of which privatization is just an aspect Chapter 2 is a discussion of various natures of state involvement in an economy This ranges from mere regulation to active participation The chapter discusses the competing conceptual and ideological theories and tries to situate the Nigerian experience within the broader conceptual dichotomies of capitalism socialism and the via media of mixed economy Chapter 3 is an examination of the meaning and rationales for privatization of state owned enterprises generally and the Nigerian attempts in particular Nigeria's privatization program is an ongoing exercise Yet two distinct attempts are identifiable one which started in 1988 and the reinvigoration of the exercise albeit with new constitutive frameworks in 1999 Thus Chapters 4 and 5 review the legal and institutional frameworks for these two exercises Chapter 6 deals with foreign investments in Nigeria The discussion encapsulates the pros and cons of foreign investments especially in Nigeria Chapter 7 explores the direct and indirect linkages between the privatization program in Nigeria and foreign investments in the country This is particularly apposite because one of the touted objectives of the privatization exercise is the attraction of foreign investments A conclusion follows The work finds that although foreign investments appear to have been indirectly boosted by the privatization exercise foreign investors initially did not show interest in direct acquisition of the shares and other interests

being relinquished by the government but that that attitude has been changing gradually **Foreign Direct Investment**

Dale R. Weigel, 1997-01-01 The report reviews lessons from the International Finance Corporation's IFC investment and advisory experience in the developing world which show the interactions between policy frameworks and the volume and structure of foreign direct investments FDI Case studies show how the Corporation promotes successful project structures and regulatory changes as it tries to attain the strongest development impact for investments In developing countries FDI has flowed mainly into manufacturing and processing industries In the past investment attractiveness had been closely linked to possession of natural resources or a large domestic market while production and trade globalization competitiveness as a location for investment and exporting have become the main determinants of attractiveness Sources of FDI in the past came almost exclusively from industrial countries though recently those sources have widened emerging from developing countries in their own right and for their own regions IFC as an international initiative to promote FDI in developing countries is liable to promote bilateral trade agreements bilateral and multilateral financial institutions and investment promotion programs its advisory role may vary from diagnostic studies overviewing constraints to FDI to investment policy studies giving specific solutions on either changes or strategies The study further looks at how policy environment is set and at finding investor opportunities through project financing largely structured as joint ventures The inherent fragile nature of joint ventures restricts foreign ownership thus limiting project structures however careful project design has led to successful operations by ensuring management and financial arrangements Still to maximize benefits an unfinished agenda of policy reform remains and as more countries open to FDI this integration will lead to an overall increase in FDI flows **Facilitating**

**Foreign Participation in Privatization** Kathy Megyery, Frank Sader, 1996-01-01 This study focuses on ways in which community financing can support formal and primary education in the wake of decentralization The report considers not only monetary financing but community contributions of materials labor expertise and land as well An examination of the volume nature and mechanics of community financing in a range of settings is followed by a discussion of policy issues facing governments specific strategies from various countries and the importance of monitoring and evaluation Country case studies and best practices are provided The Privatization Challenge Pierre Guislain, 1997 analisa os aspectos legais e institucionais e apresenta uma lista com a legisla o sobre privatiza o em 112 paises

**Privatization South American Style** Luigi Manzetti, 1999 Privatization South American Style focuses on the politics of privatization in Argentina Brazil and Peru It examines both the micro and macroeconomics of achieving privatization the policy measures introduced and factors affecting the implementation of privatization The political dimensions of privatization are analysed in order to explain the variations in national success in formulation and implementing privatization programmes The author argues that evidence suggests that national governments as planned and that rarely implement most divestiture policies from a technical standpoint privatization is a learning process that evolves through trial and error It also examines the apparently

unconventional methods used by the governments of Argentina Brazil and Peru to achieve privatization Comparative in its approach the book seeks also to shed light on the nature of privatization in countries throughout the developing world The book more generally argues that poorly designed privatization policies may have future serious implications on issues such as the rule of law and the regulation of public utilities

**The Environmental Implications of Privatization** Magda Lovei,Bradford S. Gentry,2002 Governments have increasingly come to recognize the economic potential and fiscal advantages of privatization Privatization under the right conditions can also yield environmental benefits and contribute to sustainable development This report contains a number of case studies which highlight the lessons learned about the environmental implications of privatization It stresses that privatization offers an opportunity for making strategic decisions with longer term impacts This report also emphasizes that integrating environmental and social considerations into the privatization process leads to more sustainable outcomes It also recommends strategies toward building on the positive linkages between privatization and environmental protection

**Privatisation in Developing Countries** Paul Cook,Colin H. Kirkpatrick,2000 **Economic Development, Foreign Investment and the Law:Promoting Economic Development Through Private Sector Involvement, Foreign Investment and the Rule of Law** Robert Pritchard,1996-03-07 Full Title Economic Development Foreign Investment and the Law Promoting Economic Development through Private Sector Involvement Foreign Investment and the Rule of Law This new publication was inspired by the desire to commemorate the 25th Anniversary of the founding of the Section on Business Law of the International Bar Association Practising lawyers from all over the world have contributed to this book with their knowledge and expertise The issues involved in the economic development process have been pursued with a practical approach Bearing in mind that the legal system of each country is unique that many countries are currently undergoing major programmes of legal reform and that most development issues are country specific this study does not make any claim to comprehensiveness or coherency of treatment If the book helps to accelerate reform efforts it will have achieved a useful purpose It is hoped that it will serve as a source of practical information for a wide range of people interested in the legal aspects of development and investment issues including the special issues associated with the use of foreign capital

Trends in Private Investment in Developing Countries ,1970 *Toward a Privatization Strategy in Developing Countries* Ahmed Ali Attiga,1999 *Journal of International Affairs* ,1996

**Performance and Economic Expectations of Newly Privatized Telecommunication Companies** Akradej Pratepusanond,2001 Overall the findings show that privatization works and that TOT would greatly improve its profitability operating efficiency output service delivery and capital investment spending without lowering the employment level after privatization This should bring some comfort and give enthusiastic hope to the Thai government and those in other developing countries where privatization is being contemplated

*Privatization and Globalization* Ram Mudambi,2003 Comprises a collection of previously published articles written by economists over the past two decades on
