## **Privatizing Russia:**

**Privatizing Russia** Maxim Boycko, Andrei Shleifer, Robert Vishny, 1997-01-22 Privatizing Russia offers an inside look at one of the most remarkable reforms in recent history Having started on the back burner of Russian politics in the fall of 1991 mass privatization was completed on July 1 1994 with two thirds of the Russian industry privately owned a rapidly rising stock market and 40 million Russians owning company shares The authors all key participants in the reform effort describe the events and the ideas driving privatization They argue that successful reformers must recognize privatization as a process of depoliticizing firms in the face of massive opposition making the firm responsive to market rather than political influences The authors first review the economic theory of property rights identifying the political influence on firms as the fundamental failure of property rights under socialism They detail the process of coalition building and compromise that ultimately shaped privatization The main elements of the Russian program corporatization voucher use and voucher auctions are described as is the responsiveness of privatized firms to outside investors Finally the market values of privatized assets are assessed for indications of how much progress the country has made toward reforming its economy In many respects privatization has been a great success Market concepts of property ownership and corporate management are shaking up Russian firms at a breathtaking pace creating powerful economic and political stimuli for continuation of market reforms At the same time the authors caution the political landscape remains treacherous as old line politicians reluctantly cede their property rights and authority over firms

**Privatizing the Privatized** Aaron Tornell, 1999 In the first part of this paper we argue that three reforms must be implemented if privatization is to increase efficiency First establishing unitary control rights within the firm Second making privatized firms face hard budget constraints Third establishing a non corruptible judicial system and transparent bankruptcy procedures The question arises as to what course of action should be undertaken when these reforms have not been undertaken and privatizers have only a small window of opportunity Either they privatize hastily today or not at all Should they go ahead with privatization and hope that the newly privatized firms will create the demand for good laws In the case of behemoths the answer is not clear cut Privatization without prior implementation of the three reforms mentioned above will simply replace government bureaucrats with private mafias i e private groups with the power to extract fiscal transfers These private mafias might behave more voraciously than the bureaucrats they are replacing reducing aggregate efficiency and further hindering the growth of the competitive private sector In the second part we address the more traditional issues of auction design and of restructuring and regulation of monopolies with network externalities

**Privatizing Rural China** Hongbin Li, 2001 *Kremlin Capitalism* Joseph R. Blasi, Maya Kroumova, Douglas Kruse, 2018-10-18 The first book to describe Russia's massive economic transformation for an American audience *Kremlin Capitalism* provides a wealth of data and analyses not previously available in this country The authors articulate the political and economic goals of Russian privatization examine the current ownership of the largest enterprises in Russia and chart the

serious problem of corporate governance in the new private businesses Kremlin Capitalism is based on the only continuous study of Russian privatization throughout the Russian Federation from 1992 to the present The authors tracked down the story of the transition in the cities towns and villages of fifty of Russia's eighty nine provinces updating their findings after the June 1996 election The result is an up to the minute report of the largest property transfer in history and an analysis of one of this century's most significant economic transformations The volume also characterizes the position of workers in terms of unemployment wages union power and their changing role as employee shareholders What really happened when Russia privatized its economy The Kremlin brokered the initial struggle among different interest groups eager to claim a portion of Russian property workers managers the Mafia the old Soviet bureaucracy regular citizens entrepreneurs Russian banks and foreigners While competing with one another all struggled to free themselves from seventy years of Communist economic culture Four years after the process began have large companies learned to offer goods and services profitably and pay dividends to shareholders Individual stories come alive as the book explores problems Russians face in structuring a new economic system defining the ownership and governance of thousands of corporations one by one Russian economic practices are being forged in the heat of fierce political struggles between resurgent Communists and nationalists and old Soviet managers on the one hand and more liberal elements of its infant democratic system on the other Whether a few big conglomerates and the powerful banks and holding companies from Soviet days will dominate the new Russian economy to the exclusion of most citizens remains to be seen Many questions persist How will billions of dollars of capital be raised to retool restructure and reorient the heart and soul of Russia's economy Will open stock markets stimulate a new economic order or will that new order be imposed through strong state supports and subsidies What role will be played by shadowy conglomerates that are trying to shape a disorganized economy into something resembling the old Soviet system The authors note the paradox of a capitalism conceived designed implemented and evaluated by the Kremlin when one aim of reform is to allow market forces to play freely Kremlin Capitalism asks whether rapid privatization has catalyzed or complicated the transition to a more liberal political and economic system a question that will reverberate for decades

*Privatization in Eastern Europe* Hans Smit,Vratislav Pěchota,1994      *Conversion of the Defense Industry in Russia and Eastern Europe* Joseph Di Chiaro,1995      **After Voucher Privatization** John S. Earle,Saul Estrin,1997      *Russia After Yeltsin* Vladimir Igorevich Tikhomirov,2001 This is an examination of Russia after Yeltsin which looks at various aspects of the Presidency and post communist Russia Topics discussed include nationalization and democratization reform business industry economics military power and politics      *Russia Transformed* Dmitrii Mikheev,1996 Russia Transformed dispels many misunderstandings and misconceptions about the new Russia documenting the new Russian elite's struggles to create an entirely new economy and political system while dealing with wrenching changes in social conditions such as inflation crime alcoholism political corruption and poverty      *Dividing the Spoils* Ethan B. Kapstein,Branko Milanović,2000 The gains from

the transition in post communist Russia were captured by the new managerial class which won rents from the state in the form of privatized enterprises state subsidies credits and opportunities for tax evasion Those rents reduced state revenues that could have supported social policy including pension reform which in turn could have fueled industrial restructuring With neither pension reform nor industrial restructuring Russia s economy has continued to shrink Cover

**Privatization in Central and Eastern Europe** Saul Estrin,1994 Provides a systematic comprehensive and authoritative analysis of the privatization process in Central and Eastern Europe

*The New Russia* Gail W Lapidus,1995 Analyzing the problems of contemporary Russia and examining the Yeltsin Government s attempts to deal with them this book draws on the work of scholars from both Russia and the West It considers the impact of political reform on a variety of relevant areas

The Rise and Fall of Privatization in the Russian Oil Industry Li-Chen Sim,2008-10-24 This book is a study of the actors and institutions that shaped decision making on privatization in the Russian oil industry between 1992 and 2006 Li Chen analyzes the origins of privatization as a policy on a macro industry wide level as well as presenting three in depth case studies of privatization on a company level

**The Selling of the Soviet Empire** Alfred Kokh,1998 Never before has there been an attempt to transform a massive state owned economy into a dynamic free market system The story of the conversion of the dinosaur Marxist Soviet state into the free wheeling capitalist society of today s Russian Federation is one of the most compelling dramas in history This tale includes violence corruption and a web of political conspiracy It is a true life economic political thriller Who are the new Russian financial magnates who are grabbing former state property What were the terms for disposing of the state s immense wealth to private investors What was the role of American financiers These questions and more are answered here In addition to what he saw with his own eyes in the crucial period between 1992 and 1997 Kokh also paints vivid pictures of the influential decision makers that he worked closely with including Anatoly Chubais the little known Kremlin kingpin who ran Boris Yeltsin s re election campaign and served as both Deputy Prime Minister and Finance Minister Kokh uses his expert knowledge of the Russian government to bring readers into the momentous meetings that changed the world including his cogent analysis of events occurring in Russia at the present time

Dealing with the New Russia Nigel Holden,Cary L. Cooper,Jennifer Carr,1998-07 Despite economic woes and murky data global investors are pouring in Is the bubble set to burst was the question posed by Business Week in March 1997 Not according to current data which sees an ever growing river of foreign cash flowing into Moscow But how long can it last Since the collapse of the Soviet Union Russia and the CIS have become a hunting ground for business and management adventurers Management consultants business people educators and economists have rushed to do business in the New Russia taking advantage of the huge sums of money poured into Russia by global investors But dealing with a fragile volatile and unpredictable economy is only part of the difficulty facing those wishing to take advantage of a bargain priced if risky marketplace Westerners are often faced with serious and sometimes intractable communication problems The differences in economic and political

systems infrastructures national and business cultures and managerial attitudes and habits present difficulties not previously encountered elsewhere To achieve long term success in this part of the world it is essential perhaps more than anywhere to build relationships This means genuinely understanding the past as well as the present To understand Russia today it is crucial to understand where it has come from Only then can you have a stake in its future In order to have any hope of meeting long term business objectives in this most restless of countries it is essential to build intense interpersonal relationships Knowing how to do this requires an informed understanding of Russia s past as well as an appreciation of the complexities of the present transition to market economy conditions and insights into the Russian business mentality Without such knowledge all forms of management cooperation with Russia are placed under severe stress Dealing with the New Russia helps to demistify the boundaries which must be crossed by focusing on Russian and their assumptions about and attitudes to the West the new style Russian manager business executive the skills needed to initiate and develop a business relationship with Russians the Russian approach to business negotiation Extensively researched this practical accessible and informative book which includes a glossary of Russian management expressions will be invaluable for all those contemplating or embarking on major involvement with their Russian partners *Why do Governments Privatize?* Loren Brandt, Hongbin Li, and Joanne Roberts, 2001 **The History of Russia** Charles E. Ziegler, 1999-11-30 Discusses the political and economic aspects of each period as well as the social and cultural milieu and includes a timeline brief biographical notes on key players and a bibliographic essay *Russia* Ira W. Lieberman, 1995 This book contains a collection of papers prepared at a World Bank conference held in June 1994 on privatization and private sector development in Russia It reviews the privatization achievements of Russian reformers over the past three years discusses emerging second tier privatization and post privatization issues and summarizes the key themes in the papers presented at the conference Between November 1991 and June 1994 1 between 12 000 and 14 000 medium size and large enterprises had been transferred to private ownership 2 this set of firms employed more than fourteen million people or about half of those employed in Russia s industrial sector 3 about forty million Russian citizens owned shares in privatized firms or investment funds Although the Russian privatization program has achieved impressive results the transfer of ownership mainly to insiders is only a first step This must be followed by equally essential second steps to facilitate ownership of privatized firms to external core investors who will bring in much needed capital managerial know how and access to global markets Website **Mass Privatization and Partial State Ownership of Firms in Transition Economics [sic]** John Bennett, 2001 **California Management Review**, 1995
