Bruce McLaren's performances as a F1 endurance and Can Am driver were almost always impressive. But it was the New Zealander's career as an innovative carbuilder which forever etched the McLaren name in the annals of motorsport. This photohistory examines McLaren's legendary endurance and Can Am racers beginning with the formation of Bruce McLaren Racing Limited in 1963 continuing through his death at Goodwood in 1970 and finishing with the completion of the Can Am series in 1974. Splendid photography gives readers views of the cars under construction and in action and candid glimpses of Bruce McLaren and other personalities associated with the organization including long time teammate Denis Hulme. Dave Friedman is a prolific motorsport photographer and historian. His recent MBI titles include *Lola Can Am Endurance Race Cars* and *Pro Sports Car Racing in America 1958 1974*. He lives in Newport Beach, California.

**Pro Sports Car Racing in America** Dave Friedman, 2004  
Penske, Shelby, Hall, Gurney, Hill, Ginther, Reventlow, Miles, Cunningham, Krause: these are the men who dominated sports car racing in North America at the start of the 1958 racing season. They had spent a lot of their own money on the hobby they loved, but now they wanted something back. They wanted to go pro. For the next 16 years the cars became progressively faster, the competition hotter and the stakes higher. But what was it really like to thread a factory-sponsored Porsche 917 or Ferrari 512 through the corkscrew at Riverside or to tromp the brake on a factory McLaren at the last possible deep spot of the Canadian Corner at Road America? Few are fortunate to know first hand, but for the rest, Dave Friedman's photography straps you in the driver's seat. More than 300 photos, many in color, relive the fastest, hottest, most intense racing in American history.

Then something about the quirky little car caught the imagination of a generation and the low-cost utilitarian Bug was suddenly sporting a custom paint job and fancy wheels and tricked-out engines. This book provides a fantastic overview of customized Bugs. It shows the scene from which the demon bug emerged and focuses on specific styles from the mild to the wild. Cruisers and dragsters, sleepers and monsters: all are captured by Stephan Szantai's unmatched photography. Accompanying these remarkable pictures is the how and why of each car's build. Painted, re-equipped, modified to taste: these are the Bugs of a generation's dreams, a most humble vehicle suddenly and magnificently transformed.
