The Pro-Life/Choice Debate Mark Y. Herring, 2003-07-30 Herring examines the issue from the debate s origin to its current state and expected future Narrative chapters include discussions of the pro and con arguments associated with abortion featuring quotes from doctors politicians religious figures and ordinary people **Speaking for the Unborn:**

30-Second Pro-Life Rebuttals to Pro-Choice Arguments Steven A. Christie, M.D., J.D., 2022-02-07 The Pro Life cause is a winning one and Pro Life advocates must be able to articulate our powerful and persuasive reasons to anyone who asks *Speaking for the Unborn 30 Second Pro Life Rebuttals to Pro Choice Arguments* is designed to make sure Pro Life advocates are fully prepared for this great challenge It presents the best rebuttals to every Pro Choice argument made in support of abortion rebuttals based on science the law reason social justice and morality This handbook and its companion website *SpeakingForTheUnborn.org* is all you will ever need to powerfully and persuasively speak up for those who have no voice of their own **Challenging Reproductive Control and Gendered Violence in the Américas** Leandra Hinojosa

Hernández, Sarah De Los Santos Upton, 2018-04-05 *Challenging Reproductive Control and Gendered Violence in the Am ricas* Intersectionality Power and Struggles for Rights utilizes an intersectional Chicana feminist approach to analyze reproductive and gendered violence against women in the Am ricas and the role of feminist activism through case studies including the current state of reproductive justice in Texas feminicides in Latin America raising awareness about Ni Una M s and anti feminicidal activism in Ciudad Ju rez and reproductive rights in Latin America amidst the Zika virus Each of these contemporary contexts provides new insights into the relationships between and among feminist activism reproductive health the role of the state local governments health organizations and the media and the women of color who are affected by the interplay of these discourses mandates and activist efforts **Beyond Pro-life and Pro-choice** Kathy Rudy, 1996

Beyond Pro Life and Pro Choice is a gift to all who want to expand their understanding of the religious moral and philosophical aspects of the abortion debate Ethicist Kathy Rudy examines four systems of belief Catholicism evangelical Protestantism feminism and classical liberalism as expressed in the medical profession and reveals the role abortion plays in each She shows why in each case ideas about abortion are unlikely to change because they emerge from each community s deeply held values and concerns which vary from community to community She demonstrates that constructing the abortion debate as a choice between pro life and pro choice has distorted and misrepresented the ways that many people relate to the issue of

abortion and has obscured the diversity of belief both among and within communities and individuals Finally she offers a provocative alternative that would allow every community involved to more freely develop and express its views about the morality of abortion *House of Commons Debates, Official Report* Canada. Parliament. House of Commons,1884

Morality Politics in American Cities Elaine B. Sharp,Yvette M. Alex-Assensoh,2005 Topless bars casino gambling needle exchange programs for drug addicts there s no question morality issues remain front and center in urban politics Presenting a systematic analysis of culture war issues at the local level Elaine Sharp shows how American cities deal with these ongoing concerns Drawing on a sample of ten strategically chosen cities she explains differences in how municipalities respond to controversies surrounding sex business abortion clinics legalized gambling gay rights and drug use By analyzing the relative importance of subculture economics and institutional arrangements in the disputes she points the way toward richer and more complete understanding of how different cities respond differently to these hot button issues Far more than a statistical study *Morality Politics in American Cities* is a collection of fascinating stories of real people grappling with down to earth issues and real life drama richly informative case studies that will captivate students and interested citizens alike Mayors public health directors activists and others speak their minds about the pros and cons of these controversies Here are officials in one city confronting the Vatican over funding for abortion services those in another battling a local university over its refusal to provide health benefits to gay partners of faculty members and still others mounting a massive community sponsored attack on topless clubs These stories provide detailed evidence to support classifications needed for comparing cities experience with each of the five morality issues They also corroborate inferences drawn from the comparisons by showing what considerations were in play as local officials grappled with these issues Overall the study shows that cultural factors usually dominate policymaking in local politics except when specific economic interests are at stake and also observes that county level governments are more important than previously thought in terms of morality issue decisions As provocative as it is informative *Morality Politics in American Cities* demonstrates that such issues same sex marriage for example are multidimensional and often difficult to resolve Its conclusions however contingent mark an important step in the ongoing process of understanding important differences in approaches to these issues and clearly show how moral conflicts continue to define American politics *House of Commons Debates* Canada. Parliament. House of Commons,1877

Multiculturalism and American Democracy Symposium on Science, Reason, and Modern Democracy,1998 The fourteen essays in this volume address the pros and cons of multiculturalism and explore its relationship with liberal democracy **Culture Wars and Local Politics** Elaine B.
