*Probing the Earth*, 1977 New Practices - New Pedagogies Malcolm Miles, 2004-11-23 With radical changes happening in arts over the past two decades this book brings us up to date with the social and economic contexts in which the arts are produced Influential and knowledgeable leaders in the field debate how arts education particularly in visual art has changed to meet new needs or shape new futures for its production and reception Opening up areas of thought previously unexplored in arts and education this book introduces students of visual culture performance studies and art and design to broad contextual frameworks new directions in practice and finally gives detailed cases from and insights into a changing pedagogy

The Greening of Art Marga Bijvoet, 2016-02-17 The Greening of Art describes the shifts in position between art and nature which took place during the past fifty years to set out re establishing a new relationship between art and the landscape environment and attempt in various ways to re connect art with nature From the 1960s onward when artists went outdoors to explore the environment as extended space of the self via land reclamation projects and collaborations with landscape architects in redesigning whole parks to the present day with its recent development of urban gardening projects

**Urban Futures** Tim Hall, Malcolm Miles, 2004-11-23 Urban Futures brings together commentaries from a wide range of contemporary disciplines and fields relevant to urban culture form and society The book concerns cities in the broadest sense not just as buildings and spaces but also as processes and events or sites of occupation in which meanings are constructed in many ways The contributors draw on their specialist areas of research to inform current debate but they also speculate as to how cities will be shaped in the 21st century Specific areas of research include homeless people's organisations and restoration ecology in brownfield sites in the USA post industrial urban landscapes post industrial economics tourism and cultural planning The book allows each writer to state their own conclusions but together they suggest that tomorrow's cities will while remaining locations of difference and contestation be rapidly evolving systems in which dwellers assume increasing responsibilities and power **Werk, Bauen + Wohnen**, 1998 *Metaphor, New Projects by Contemporary Sculptors*, Hirshhorn Museum and Sculpture Garden Howard N. ,1977 **Zeitgeist** Neuer Berliner Kunstverein, Martin-Gropius-Bau, 1982 Im Auftrag des Neuen Berliner Kunstvereins kuratierten Christos M. Joachimides und Norman Rosenthal die Schau, deren Name Programm war. In einer Phase künstlerischen Umbruchs als Altmeister und Junge Wilde zusammentrafen, wurde der Martin-Gropius-Bau erstmals mit einer reinen Kunstaussstellung in beiden Geschossen bespielt. Die Eröffnung war am 15. Oktober 1982, die Laufzeit vom 16. Oktober bis 16. Januar 1983. Eine besondere Herausforderung war die Umsetzung des Lichthofs, da Joseph Beuys einen riesigen Lehmberg konzipierte. Statisch und logistisch galt es gegen manchmal scheinbar unüberwindliche Widerstände dem Wunsch des Künstlers nachzukommen. Im Ergebnis harmonisierte das Ensemble mit den Bildern von Salome Rainer, Fetting, Francesco Clemente und anderen im Umgang. Über allem schwebt der Mann mit Aktentasche von Jonathan Borofsky. Ein Hauptaugenmerk in der Vorbereitung bestand in der sensiblen Aufbereitung der Ausstellungssäle. Alle Räume wurden mit feinen Gaze-Vorhängen ausgestattet. Tages- und Kunstlicht vereinigten sich so in vorbildlicher Weise. *Monthly Catalog of United States Government Publications*, 1978 Amerikanische Zeichnungen, 1930-1980 Walter Hopps, 1985 *Ends of the Earth* Philipp Kaiser, Miwon Kwon, 2012 This catalogue to accompany the museum exhibition traces the emergence of the artistic impulses to use the earth as material, land as medium and to locate works in remote sites beyond familiar art contexts. Significantly, *Ends of the Earth* challenges many myths about Land art: that it was primarily a North American phenomenon, that it was foremost a sculptural practice and that it exceeds the confines of the art system. Featuring over 100 artists hailing from countries including Great Britain, Germany, Iceland, Israel, Japan, the Netherlands and the United States, the exhibition constitutes the most comprehensive survey of Land art to date. Provided by publisher *The American Century* Lisa Phillips, 1999 Phillips, director of the New Museum of Contemporary Art, NY, focuses on the avant-garde artists who propelled American art after World War II and who continually challenge basic assumptions about what art is and what the role of the artist should be within the current turbulent social atmosphere. Sidebar essays by a variety of experts in related fields highlight the broad cultural context from rock n' roll to underground film to postmodern dance in which vanguard American art flourished. Extensively and attractively illustrated in color and black and white. Oversize 9 75x11 5.
