Community Oriented Policing & Problem Solving, 1992 **Impossible Jobs in Public Management** Erwin C. Hargrove, John C. Glidewell, 1990 If you think your job is hopelessly difficult you may be right Particularly if your job is public administration Those who study or practice public management know full well the difficulties faced by administrators of complex bureaucratic systems What they don't know is why some jobs in the public sector are harder than others and how good managers cope with those jobs Drawing on leadership theory and social psychology Erwin Hargrove and John Glidewell provide the first systematic analysis of the factors that determine the inherent difficulty of public management jobs and of the coping strategies employed by successful managers To test their argument Hargrove and Glidewell focus on those jobs fraught with extreme difficulties impossible jobs What differentiates impossible from possible jobs are 1 the publicly perceived legitimacy of the commissioner's clientele 2 the intensity of the conflict among the agency's constituencies 3 the public's confidence in the authority of the commissioner's profession and 4 the strength of the agency's myth or long term idealistic goal Hargrove and Glidewell flesh out their analysis with six case studies that focus on the roles played by leaders of specific agencies Each essay summarizes the institutional strengths and weaknesses specifies what makes the job impossible and then compares the skills and strategies that incumbents have employed in coping with such jobs Readers will come away with a thorough understanding of the conflicting social psychological and political forces that act on commissioners in impossible jobs

Community Policing and Problem Solving Kenneth J. Peak, Ronald W. Glensor, 2002 For courses in Community Policing and Problem Solving Police in America Police Community Relations Police or Criminal Justice Administration Unique in perspective and comprehensive in coverage this text fills a gap in the literature by providing an exceptionally up to date and scholarly synthesis of the collective nationwide experience in implementing both community policing and problem oriented policing It explains the processes and terms in detail what they mean and how they are applied as well as how they are implemented and evaluated It explores both historical and operational perspectives and provides examples of existing strategies and future considerations Author team has over 35 years combined police service and 25 years of academic experience NIJ Reports ,1987 Publications of the National Institute of Justice, 1983-1987 Supplement National Institute of Justice (U.S.),1990 The Police in the Community Linda S. Miller, Kären M. Hess, 2002 By focusing on the dual themes of community police collaboration and problem oriented policing this book focuses on police involvement and interaction with the communities they serve It explores the practical strategies of community policing as well as the philosophy behind the community policing movement The book gives a historical perspective to community policing examines it as a philosophy and introduces the skills criminal justice professionals need to implement an effective community policing program Canadian Crime Control Policy Timothy F. Hartnagel, 1998 **Canadian Journal of Criminology** ,1991 Economic Crime in Russia Alena Ledeneva, Marina Kurkchian, 2000-08-08 This book is distinctive in at least three ways Firstly the authors approach economic crime in Russia without its a priori stigmatization as part of the general criminalization of the economy Rather they view it as a generic response to and integral part of the post Soviet transition and analyze the role of economic crime in the functioning subverting of state market and civil society institutions in the new Russia Secondly the book reveals the latent constituents of economic crime andndash the customary practices which are so widespread that they become commonly accepted or tolerated in society but at the same time constitute and nurture an environment for economic crime Thirdly it offers clues for solving some of Russia s paradoxes How do people survive if wages are not paid on time or in full and even when paid are still inadequate for basic living standards If the rule of law does not rule then what does What are the rules of the alleged Russian disorder How is it possible to combat corruption in a society where supposedly no agency or institution is free from it Most forms of Russian economic crime in the 1990s are examined in this book The authors demonstrate how change and continuity are both factors which are crucial to an understanding of the post Soviet order and to account for the difficulties of democratization and marketization in Russia This work challenges the supposed transparency of the post Soviet Russian economy for the outside world and shows how the Russian economy really works The idea for this book arose out of the East European Regional Programme at the 16th International Symposium on Economic Crime held at Jesus College in Cambridge

in September 1998 It includes papers presented at the Symposium together with new papers commissioned especially for this volume *Justice Administration* Kenneth J. Peak, 1998
