Problem Of God 1930:

A Concise Encyclopedia of the Philosophy of Religion Anthony C. Thiselton, 2005-07 This concise authoritative encyclopedia from one of the world's most renowned theologians explores all the major themes in the philosophy of religion

The Making of American Liberal Theology Gary J. Dorrien, 2003-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought. The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism/atheism. It is defined by its openness to modern intellectual inquiry, its commitment to the authority of individual reason and experience, its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people. Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E. Channing, Ralph Waldo Emerson, Horace Bushnell, Henry Ward Beecher, Elizabeth Cady Stanton and Charles Briggs. Dorrien notes that although liberal theology moved into elite academic institutions, its conceptual foundations were laid in the pulpit rather than the classroom.

Philosophy of One on the Many Lawrence Eleyot, 2016-06-17 The truth costs nothing although at times it is hard to come by and there will always be those with vested interests who will endeavor to keep it from you; this is particularly so when questioning the beliefs of religion whose leaders believe their beliefs are sacrosanct and not to be questioned. The right to believe cannot be denied; the need of some to believe is precious to them.

Reflections on Death, Dying and Bereavement William Smith, 2018-12-20 The methodology of *Reflections on Death, Dying and Bereavement* is mainly philosophical. It is intended to complement scriptural and theological studies. The volume has five main sections that are further divided by chapter. The first section contains foundational considerations. Since the belief in a continuation of life after death or reunion with deceased loved ones offers consolation to many people, the book examines the possibility of human immortality. Various rational arguments are also presented.

Die Alkoholfrage, 1931 *Reorientation: Leo Strauss in the 1930s* M. Yaffe, R. Ruderman, 2014-07-09 The first comprehensive effort to examine Strauss's astonishingly wide-ranging writings of the 1930s, some of which have only recently been made available to English-speaking readers including several herein with a view to their unifying theme of recovering classical political philosophy.
