## **Problem Of Self Love In St Augustine:**

**The Problem of Self-love in St. Augustine** Oliver O'Donovan, 1980-01-01      **Pilgrimage as Moral and Aesthetic Formation in Augustine's Thought** Sarah Stewart-Kroeker, 2017 This volume examines the pilgrimage image in order to develop an unprecedented account of moral and aesthetic formation in Augustine's thought. In so doing it will shed new light on enduring ethical debates regarding neighbourly love.

**Thomas a Kempis** Greg Peters, 2021-02-19 Given that Thomas Kempis' *Imitation of Christ* is one of the most frequently translated and read late medieval books of devotion it is surprising that there are few studies of the work in English. This book fills the void by offering an explication of Thomas' spiritual theology in the *Imitation* while situating him in his late medieval monastic context and as someone familiar with and influenced by the Modern Devotion and the Sisters and Brothers of the Common Life. Thomas' emphasis on grace and his dependence on Augustine of Hippo show to some extent that he anticipated theological developments of the Protestant Reformation. At the same time Thomas' eucharistic spirituality so central to his overall spiritual theology is quintessentially medieval. Thomas' vision of the spiritual life was expansive and all inclusive, rich and accessible for both the monk and the devout follower and imitator of Jesus Christ who lived in the world. Thomas' spirituality is for everyone a synthesis of Christian thought that steers away from the late medieval Scholastic theologies of the university towards a monastic theology and spirituality for anyone who desires to follow Jesus Christ devoutly. His vision remains relevant for all twenty-first century Christian believers.

**Augustinian and Ecclesial Christian Ethics** D. Stephen Long, 2018-08-15 What is the relationship between the command to love one's enemies and the use of violence and/or other coercive political means? This work examines this question by comparing and contrasting two important contemporary approaches to Christian ethics: neo-Augustinian and the ecclesial or neo-Anabaptist. It traces the complicated conversation that has taken place since John Howard Yoder took on Reinhold Niebuhr's interpretation of the Anabaptists in the 1940s. It consists of three parts. The first part traces the development of the Augustinian-Niebuhrian approach to ethics from Niebuhr through those who have advanced his work including Paul Ramsey, Timothy Jackson, Charles Mathewes, Eric Gregory, and Jennifer Herdt. It also examines the Augustinian ethics of Oliver O'Donovan, John Milbank, and Nicholas Wolterstorff. Along with tracing the Augustinian approach and its trajectories through agapism theology and the interpretation of Augustine, it identifies fifteen criticisms that this approach brings against the neo-Anabaptists. The second part traces the origin of the ecclesial or neo-Anabaptist approach and then examines its relationship to and criticism of agapism: what theological doctrines are central and its interpretation of Augustine. Its purpose is primarily constructive by explaining the role that ecclesiology, Christology, and eschatology have among the neo-Anabaptists. The third part addresses the criticisms levied by Augustinians against the neo-Anabaptists by drawing on the constructive theology in the second part. It intends to show where the Augustinian critics are correct, where they have missed key theological teachings, and where they misrepresent. It also assesses the summons to

the nationalist project the Augustinians put to the neoAnabaptists If this work is successful this third part will not be defensive It will instead illumine the reasons for the criticisms and suggest means by which the conversation that began between Yoder and Niebuhr can continue and possibly bear fruit for theological ethics in both its ecclesial and nationalist projects for generations to come      **Selbstliebe und Geselligkeit** Friedrich Vollhardt,2001 Die Reihe versammelt Forschung in deutscher und englischer Sprache die die Trias aus Kultur Text und Medium in ihrer wechselseitigen Bezogenheit zum Gegenstand der Untersuchung macht Prozesse des Mitteilens und der Vermittlung entfalten sich stets in kulturellen Zusammenhängen auf die sie auch zurückwirken In der Reihe werden Kommunikationskulturen sowohl als Effekt von Formgebung als auch mit Blick auf ihre medialen Bedingungen untersucht      **Selbstliebe** Monika Hoffmann,2002 Originally presented as the author's thesis Doctoral Regensburg 2001/02      **Searching the Limits of Love** David J.
