The Mystical Element of Religion Friedrich von Hügel,2023-11-13 In The Mystical Element of Religion

Friedrich von Hügel undertakes a profound exploration of the interface between religion and mysticism articulating a nuanced perspective that highlights the intrinsic value of mystical experiences within the broader theological landscape. Written in an eloquent and accessible style, this work synthesizes diverse religious traditions, emphasizing phenomenology while engaging with both contemporary and classical theological thought. Von Hügel's historical context, amid a burgeoning interest in the psychological and spiritual dimensions of belief, informs his reflective examination of how mysticism enriches religious practice and understanding, leading to a more profound engagement with the divine.

Friedrich von Hügel, a prominent theologian and philosopher of the late 19th and early 20th centuries, was influenced by his upbringing in a Catholic milieu and his exposure to different faith traditions. His scholarly pursuits were marked by a deep engagement with the mystical writings of various saints alongside an academic grounding in philosophy and history. This multifaceted background propelled von Hügel to advocate for a more inclusive viewpoint on religion, one that valued the personal and experiential aspects of faith. This seminal work is highly recommended for scholars, theologians, and lay readers alike seeking to deepen their understanding of the mystical aspects of religion. Von Hügel's synthesis of theology and spirituality invites readers to appreciate the richness of faith as a multi-dimensional experience, making it an essential addition to any religious studies library.

The Mystical Element of Religion (Vol. 1&2) Friedrich von Hügel, 2020-10-10

Hügel's *The Mystical Element of Religion* features a critical but largely appreciative philosophy of mysticism. The author's three elements of religion are his most enduring contribution to theological thinking: The human soul, the movements of western civilization, and the phenomena of religion itself. He characterized these by three elements: the historical, institutional element; the intellectual, speculative element; and the mystical, experiential element. This typology provided him an understanding of the balance, tension, and friction that exists in religious thinking and in the complexity of reality and existence. It was an organizing paradigm that remained central to his project. The effort to hold these sometimes disparate dimensions together was structurally and theologically dominant throughout his writing.

The main subject of Hügel's study are the life and teaching of Catherine of Genoa (1447-1510), the Italian Roman Catholic saint and mystic, admired for her work among the sick and the poor and remembered because of various writings describing both these actions and her mystical experiences.
