but it arose in the surf of a larger cultural need Victorians were on the hunt for self understanding Mesmerists spiritualists and other romantic seekers roamed sunken landscapes of entrancement and when psychology was finally ready to confront these altered states psychical research was adopted as an experimental vanguard Far from a rejected science it was a necessary heterodoxy probing mysteries as diverse as telepathy hypnosis and even s ance phenomena Its investigators sought facts far afield of physical laws evidence of a transcendent irreducible mind The New Prometheans traces the evolution of psychical research through the intertwining biographies of four men chemist Sir William Crookes depth psychologist Frederic Myers ether physicist Sir Oliver Lodge and anthropologist Andrew Lang All past presidents of the society these men brought psychical research beyond academic circles and into the public square making it part of a shared far reaching examination of science and society By layering their papers textbooks and lectures with more intimate texts like diaries letters and literary compositions Courtenay Raia returns us to a critical juncture in the history of secularization the last great gesture of reconciliation between science and sacred truths The Problems of Psychical Research Hereward Carrington, Fiona Broome, 2009-11-10 Hard core ghost enthusiasts will enjoy this study from the early days of paranormal research Skeptics will chuckle over the 19th and early 20th century ghost photos Believers will rediscover psychic techniques that may lead to modern breakthroughs and richer paranormal encounters This book is an illustrated reprint of the 1921 classic second edition It is indexed with one inch margins for jotting notes and 11 point type for easy reading This book is the companion volume to Fiona Broome s revised annotated edition *Proceedings of the Society for Psychical Research* Society for Psychical Research (Great Britain), 1927 List of members in v 1 19 21 24 **Journal of the Society for Psychical Research** Society for Psychical Research (Great Britain),2005 Medizinische Novitäten ,1912 Animal Magnetism, Early Hypnotism, and Psychical Research, 1766-1925 Adam Crabtree, 1988 The National Union Catalog, **Pre-1956 Imprints** Library of Congress, American Library Association.
