Problems Of Religious Diversity:

Problems of Religious Pluralism John Harwood Hick,1985-10-07 Problems of Religious Diversity Paul J.

Griffiths,2001-06-29 Exploring Religious Diversity analyzes the philosophical questions raised by the fact that many religions in the world often appear to contradict each other in doctrine and practice Analyzes the philosophical questions raised by the fact that many religions in the world often appear to contradict each other in doctrine and practice Evaluates the fundamental philosophical underpinnings of the debates between religious and non religious approaches to religious diversity Contains a glossary that defines the book s key technical terms and how they are related to one another **Problems of**

Religious Diversity Paul J. Griffiths,2015-02-23 Exploring Religious Diversity analyzes the philosophical questions raised by the fact that many religions in the world often appear to contradict each other in doctrine and practice Analyzes the philosophical questions raised by the fact that many religions in the world often appear to contradict each other in doctrine and practice Evaluates the fundamental philosophical underpinnings of the debates between religious and non religious approaches to religious diversity Contains a glossary that defines the book s key technical terms and how they are related to one another *America and the Challenges of Religious Diversity* Robert Wuthnow,2011-07-01 Muslims Hindus Buddhists

and adherents of other non Western religions have become a significant presence in the United States in recent years Yet many Americans continue to regard the United States as a Christian society How are we adapting to the new diversity Do we casually announce that we respect the faiths of non Christians without understanding much about those faiths Are we willing to do the hard work required to achieve genuine religious pluralism Award winning author Robert Wuthnow tackles these and other difficult questions surrounding religious diversity and does so with his characteristic rigor and style *America and the Challenges of Religious Diversity* looks not only at how we have adapted to diversity in the past but at the ways rank and file Americans clergy and other community leaders are responding today Drawing from a new national survey and hundreds of in depth qualitative interviews this book is the first systematic effort to assess how well the nation is meeting the current challenges of religious and cultural diversity The results Wuthnow argues are both encouraging and sobering encouraging because most Americans do recognize the right of diverse groups to worship freely but sobering because few Americans have bothered to learn much about religions other than their own or to engage in constructive interreligious dialogue Wuthnow contends that responses to religious diversity are fundamentally deeper than polite discussions about civil liberties and tolerance would suggest Rather he writes religious diversity strikes us at the very core of our personal and national theologies Only by understanding this important dimension of our culture will we be able to move toward a more reflective approach to religious pluralism **Problems of Religious Pluralism** John Hick,1985-10-07 **The Problem of**

Religious Diversity Anna Triandafyllidou,Tariq Modood,2018 Religious diversity is one of the toughest challenges that today s European societies face in their search for identity equality and cohesion in an increasingly globalised world This text

engages critically with the different models and approaches for managing religion adopted in Europe Asia and Oceania in order to seek answers to this pressing normative conceptual and policy issue Towards Religious Competence

Hans-Günter Heimbrock, Christoph Th Scheilke, Peter Schreiner, 2001 In this book scholars around Europe reflect on the changing role of religious education in a time of growing pluralism in Europe and across the world The various contributions from different European countries England and Wales Germany Netherlands and Norway focus on the debate about the existing multicultural and multireligious situation in European societies Difference and diversity especially of religion is seen as a challenge for education in Europe The chapters mention trends and common challenges for religious education As a key term of religious education religious competence is introduced It includes the ability to deal with religious pluralism and differences in a constructive way It is argued that contextual religious education facilitates a new religious competence The book also contains detailed information about current developments in the field of religious education in some European countries The Oxford Handbook of Religious Diversity Chad V. Meister, 2011 This substantial volume of thirty three

original chapters covers the full range of issues in religious diversity An indispensable guide for scholars and students its essays make novel contributions and are crafted by recognized experts who represent a wide variety of religious and philosophical perspectives and backgrounds **Religious Pluralism** Giuseppe Giordan, Enzo Pace, 2014-07-08 This volume illustrates both theoretically and empirically the differences between religious diversity and religious pluralism It highlights how the factual situation of cultural and religious diversity may lead to individual social and political choices of organized and recognized pluralism In the process both individual and collective identities are redefined incessantly moving along the continuum that ranges from exclusion to inclusion The book starts by first detailing general issues related to religious pluralism It makes the case for keeping the empirical the normative the regulatory and the interactive dimensions of religious pluralism analytically distinct while recognizing that in practice they often overlap It also underlines the importance of seeking connections between religious pluralism and other pluralisms Next the book explores how religious diversity can operate to contribute to legal pluralism and examines the different types of church state relations eradication monopoly oligopoly and pluralism The second half of the book features case studies that provide a more specific look at the general issues from ways to map and assess the religious diversity of a whole country to a comparison between Belgian French views of religious and philosophical diversity from religious pluralism in Italy to the shifting approach to ethnic and religious diversity in America and from a sociological and historical perspective of religious plurality in Japan to an exploration of Brazilian religions old and new The transition from religious diversity to religious pluralism is one of the most important challenges that will reshape the role of religion in contemporary society This book provides readers with insights that will help them better understand and interpret this unprecedented transition Religious Diversity, State, and Law Joseph Marko, Maximilian Lakitsch, Franz Winter, Wolfgang Weirer, Kerstin Wonisch, 2022-10-17 Globalisation migration and de

secularisation have fundamentally transformed the concepts of religion state and law during the last decades The main goal of this interdisciplinary approach is to clarify the multifaceted theoretical and practical challenges of religious diversity and socio political pluralism in Europe In twenty two chapters the contributions to this volume revisit basic concepts structures and institutional settings such as sovereignty the dogma of the separation of state church and or religion human and minority rights gender and religion varieties of fundamentalisms interreligious dialogue and peacebuilding and not least religious education

In Praise of Religious Diversity James B. Wiggins, 1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company

Religious Diversity David Basinger, 2021-11-18 Religious diversity exists whenever seemingly sincere knowledgeable individuals hold incompatible beliefs on the same religious issue Diversity of this sort is pervasive existing not only across basic theistic systems but also within these theistic systems themselves Religious Diversity explores the breadth and significance of such conflict Examining the beliefs of various theistic systems particularly within Christianity Judaism Hinduism and Buddhism Basinger discusses seemingly incompatible claims about many religious issues including the nature of God and the salvation of humankind He considers particularly the work of Hick Gellman Plantinga Schellenberg Alston Wainwright and Quinn applying their perspectives on exclusivism and pluralism as they become relevant to the issues in question Basinger's survey of the relevant literature proposed solutions and fresh insights offer an invaluable contribution not only for philosophers of religion and philosophical theologians but for anyone interested in the increasingly significant question of what a religious believer can or cannot justifiably say about their religious perspective

Religion, Diversity and Conflict International Academy of Practical Theology. Meeting, 2011 While religion can be a source of healing peace and reconciliation it can also be a trigger if not an underlying cause for conflict between peoples of varying beliefs With that awareness the International Academy of Practical Theology convened its 2007 meeting around the theme of Religion Diversity and Conflict From the multiple seminars lectures and studies presented at that meeting a selection was chosen for this book Representing contributions from four continents and drawing upon perspectives from African traditional religions Judaism Islam and Christianity the book offers a rich introduction to the problems and promises of religion in dialogue with 21st century diversity Religion Diversity and Conflict will serve as a veritable primer on the field of practical theology Series International Practical Theology Vol 15

Religious Diversity and Interreligious Dialogue Anna Körs, Wolfram Weisse, Jean-Paul Willaime, 2020-04-07 This edited volume offers solutions on the challenges of religious pluralisation from a European perspective It gives special attention to interreligious dialogue and interfaith relations as specific means of dealing with plurality In particular the contributors describe innovative scientific approaches and broad political and social scopes of action for addressing the diversity of beliefs practices and traditions In total more than 25 essays bring together interdisciplinary and international research perspectives The papers cover a wide thematic range They highlight how religious pluralisation affects such fields as theology politics civil society education and communication media

The contributors not only illustrate academic debates about religious diversity but they also look at the political and social scope for dealing with such Coverage spans numerous countries and beliefs from Buddhism to Judaism This book features presentations from the Herrenhausen Conference on Religious Pluralisation A Challenge for Modern Societies held in Hanover Germany October 2016 This insightful collection will benefit students and researchers with an interest in religion and laicism interreligious dialogue governance of religious diversity and religion in the public sphere **Religious**

Disagreement and Pluralism Matthew A. Benton,Jonathan L. Kvanvig,2021 This volume presents renewed efforts at how best to think about truths concerning religion It explores many issues at the intersection of the epistemology of disagreement and religious epistemology engaging in careful reflection on religious diversity and disagreement and offering ways to balance epistemic humility with personal conviction **Religious Diversity and Intercultural Education** John

Keast,Council of Europe,2007-01-01 This reference book is intended to help teachers teacher administrators policy makers and others deal with the important issue of religious diversity in Europe s schools The religious dimension of intercultural education is an issue that affects all schools whether they are religiously diverse or not because their pupils live and will work in increasingly diverse societies The book is the main outcome of the project 1The Challenge of intercultural education today religious diversity and dialogue in Europe developed by the Council of Europe between 2002 and 2005 It is in four parts theoretical and conceptual basis for religious diversity and intercultural education educational conditions and methodological approaches religious diversity in schools in different settings examples of current practice in some member states of the Council of Europe *Religion and Social Problems* Titus Hjelm,2011-01-21 Although students and scholars of

social problems have often acknowledged the role of religion no thorough examinations of the relation between the two have emerged This volume fills this gap by providing a definitive work on the role of religion in assessing constructing and solving social problems Contributors chart the relation between religion and social problems exploring such case studies as the impact of religion on drugs and alcohol use among Muslims the rising importance that religion is given in social policy the role of the Orthodox and Catholic churches in tackling social problems in post communist East Europe and the contested role of religion in the national and international politics of contemporary Japan Religion and Social Problems is a broad and path breaking contribution to the fields of sociology of religion sociology of social problems and religious studies Kierkegaard

and Issues in Contemporary Ethics Mélissa Fox-Muratton,2020-10-26 While Kierkegaard s philosophy focuses on concrete human existence his thought has rarely been challenged regarding concrete and contemporary moral issues This volume offers an overview of contemporary ethical issues from a Kierkegaardian perspective deliberately taking him out of the sphere of Theology and Christian Ethics and examining the ways in which his works can provide fruitful insight into questions which Kierkegaard certainly never himself envisaged such as accepting refugees into our communities understanding how we relate to social media issues of identity with regard to bioengineering or transgender identity or

problems of interreligious dialogue The contributions in this volume by international scholars seek to address both the challenges and insights of Kierkegaard's existential ethics for our contemporary societies and its relation to topics of current interest in the field of moral philosophy The volume is organized into three major sections the first focusing on the relation between ethics and religion a topic of primary importance with regard to the development of religious foundationalism and the challenges of dealing with diverse belief systems within our communities the second on our understandings of ourselves and our relations to others with regard to issues of media and community and the third targeting more specifically questions of identity and the ways in which the developments of modern science impact identity construction This work offers new paths for critically engaging with the moral issues of our times from an existential perspective Religious Diversity and Education. Nordic Perspectives Geir Skeie, 2009 In the last ten years or so religious plurality has become higher on the agenda for religious education research in the Nordic countries This attention to religious plurality partly reflects processes of globalisation that include both physical migration and communication of ideas and issues across the world making it smaller It also reflects the preoccupation of governments with social cohesion and as part of this intercultural education In the curricula of the Nordic countries this is manifested in different ways setting also the agenda for parts of educational research This book addresses issues related to the increasing religious plurality in the Nordic countries These issues are a challenge to many religious groups including historically dominant Lutheran national churches both nationally and locally They have also led to a reorientation in religious education research in the last decade A rich variety of research perspectives are presented under three headings Theoretical and methodical perspectives The world of the students Teachers and textbooks Nordic religious education research here proves to be internationally oriented in terms of theoretical perspectives whilst also contributing to the debate through important empirical studies Examples of issues covered in the book are unintended learning dialogue gender life interpretation spirituality identity and values In different ways all the contributions in this book shed light on the common theme of diversity and are based on a will to include diverse perspectives both on the actors and the material of the classroom as well as on the life world of young people The researchers represent different generations and different theoretical and methodological perspectives The Critical Analysis of Religious Diversity Lene Kühle, Jørn Borup, William Hoverd, 2018-06-19 Drawing on international and thematic case studies The Critical Analysis of Religious Diversity asks its readers to pay attention to the assumptions and processes by which scholars religious practitioners and states construct religious diversity The study has three foci theoretical and methodological issues religious diversity in non Western contexts and religious diversity in social contexts Together these trans contextual studies are utilised to develop a critical analysis exploring how agency power and language construct understandings of religious diversity As a result the book argues that reflexive scholarship needs to consider that the dynamics of diversification and homogenisation are fundamental to understanding social and religious life that religious diversity is a Western concept and

that definitions of religious diversity are often entangled by and within dynamic empirical realities Contributors are Martin Baumann Peter Beyer J rn Borup Paul Bramadat Marian Burchardt Henrik Reintoft Christensen Andrew Dawson Mar Grier Anna Halafoff William Hoverd Lene K hle Mar Marcos Stefania Travagnin and Andreas Tunger Zanetti
