Problems Of Authority In The Reformation Debates:

Problems of Authority in the Reformation Debates G. R. Evans, 2002-04-18 Problems of Authority in the Reformation Debates shows that in the early sixteenth century much was seen to be wrong with both the doctrine and the practice of authority in the Western Church A great deal of scholarly effort was devoted at the time to trying to understand the nature of the problem but this as the author points out was largely a piecemeal endeavour No one succeeded in providing a comprehensive account of the complex authority questions which were being raised about absolute divine sovereignty the centrality of Christ the primacy of scripture the necessity of grace and so on Dr Evans aims here to piece together underlying connections in the theology of the Reformation period as a contribution to ecumenical dialogue She shows how as theologians struggle today about words and meanings the detailed texture of semantic debate similarly underlies many of the Reformation controversies

Problems of Authority in the Reformation Debates Gillian Rosemary Evans, 1992 *Are You Alone Wise?* Susan Schreiner, 2011-01-11 The topic of certitude is much debated today On one side commentators such as Charles Krauthammer urge us to achieve moral clarity On the other those like George Will contend that the greatest present threat to civilization is an excess of certitude To address this uncomfortable debate Susan Schreiner turns to the intellectuals of early modern Europe a period when thought was still fluid and had not yet been reified into the form of rationality demanded by the eighteenth and nineteenth centuries Schreiner argues that Europe in the sixteenth century was preoccupied with concerns similar to ours both the desire for certainty especially religious certainty and warnings against certainty permeated the earlier era Digging beneath overt theological and philosophical problems she tackles the underlying fears of the period as she addresses questions of salvation authority the rise of skepticism the outbreak of religious violence the discernment of spirits and the ambiguous relationship between appearance and reality In her examination of the history of theological polemics and debates as well as other genres Schreiner sheds light on the repeated evaluation of certainty and the recurring fear of deception Among the texts she draws on are Montaigne's Essays the mystical writings of Teresa of Avila the works of Reformation fathers William of Occam Luther Thomas Muntzer and Thomas More and the dramas of Shakespeare The result is not a book about theology but rather about the way in which the concern with certitude determined the theology polemics and literature of an age
